Listed on these pages are the names and affiliations of the Reviewers for HICSS – 33. The reviewers play an extremely important role in maintaining and improving the quality of the conference. The papers published in this Proceeding have been examined by 3 to 5 reviewers who are active professionals in the subject matter of the paper. These reviewers provide opinions, recommendations, and suggestions for improvement to the authors. The Conference Chair, Track Chairs, and Minitrack Chairs express their appreciation and thanks for this valuable service provided by the reviewers. We apologize for any omissions, since some of the minitracks were not able to submit the reviewers' names by press time.
