Introducing the IEEE CS

Cloud Computing

Special Technical Community

STC Cloud Computing

computer.org/cc

IT'S THE HIGH TECH WILD, WILD WEST OUT THERE!

*We can help you explore Cloud Computing's exciting opportunities,
as well as guide and support your Cloud management decisions.*

Special Technical Communities focus on selected technical areas and integrate contemporary tools and technology to break down silos and foster new ideas.

CS Cloud Computing STC focuses on Cloud activities across CS, involving both CS members and non-members. Its work is complimentary to the IEEE Cloud Computing Initiative (IEEE CCI).

Major Activities (*hover over)

- Promote Cloud materials across IEEE
- Technically co-sponsor Cloud conferences
- Develop educational materials
- Launch new Cloud publications
- Develop Cloud Computing standards
- Develop Cloud Computing Body of Knowledge
- Publish *Cloud Scape* newsletter
- Assemble Cloud testbed for education
- Maintain online presence for above

You Can Help Us

- Organize activities at Cloud conferences
- Review papers for Cloud conferences
- Find keynote speakers
- Contribute to Cloud publications
- Serve as/ find subject matter experts
- Author educational materials
- Solicit for Cloud resources
- Contribute to IEEE CCI web portal and Computing Now
- Maintain web and social presence

Want To Join Us? It's free! Open for CS members and non-members.

We are looking for smart and enthusiastic people, interested in Cloud Computing, to help us with our projects. We have working groups on:

- Conferences
- Education
- Publishing
- Standards
- Body of Knowledge
- Newsletter
- Cloud Testbed
- Online Presence

To become a member, visit on our website **computer.org/cc** and click on the JOIN button.

To get involved as a volunteer, select any of our working groups.
