**IEEE Computer Graphics and Applications**

The professional-level magazine devoted to designers and users of computer graphics hardware, software and systems. Focuses on computer graphics research, technology, and practical use. Available either through membership in the IEEE Computer Society or through nonmember subscription.

In coming issues:

- computer animation
- display technology
- computer graphics and video
- computer graphics in the executive suite
- selecting and implementing a turnkey CAD system
- the engineer's design station
- computer graphics and mechanical engineering

Here's how to subscribe:

1. If you are already an IEEE Computer Society member, you can add *IEEE Computer Graphics and Applications* to your basic membership. If you are *not* a member, now is the time to join. (See application on next page.)

2. Or, if you prefer, you can subscribe as a nonmember. Use the subscription form below:

   Please enter my nonmember subscription to *IEEE Computer Graphics and Applications*.

   Enclosed is my check or money order for $36. I understand that I shall receive all six issues for 1982 plus four issues of the new *IEEE Computer Graphics and Applications New Product Supplement*.

Special offer:
Join the Computer Society now and receive a FREE copy of either of the following:

**Microprocessors and Microcomputers** (Second Edition) — selected papers from COMPUTER, organized and introduced by the technical editor. Sections on architecture, software, and applications include the standard specification for S-100 bus interface devices and special articles on modular programming in PL/M, microprocessor networks, and microprocessors in automation and communications. (298 pp.)

*Regular nonmember price: $12*

**Selected Reprints in Software** — selected papers from COMPUTER, organized and introduced by Marvin V. Zeikowitz. Sections cover programming languages, software creation, data bases, and applications. Includes more than 25 of the best articles from COMPUTER on the subject. (282 pp.)

*Regular nonmember price: $12*

**Don’t forget:**

Membership in the IEEE Computer Society brings an automatic subscription to COMPUTER — the leading professional journal in the field of computer engineering. COMPUTER covers the spectrum of computer system design and application. Features include: surveys and tutorials, application briefs, new product releases, book reviews, and announcements of upcoming conferences and workshops. Society membership provides an opportunity for technical interchange at the local chapter level as well as at the society’s 50-plus conferences and symposia held each year. In addition, society members receive a 25% price reduction on all Computer Society conferences and publications (over 400 titles in print).

Use the application on the facing page. Remember: to receive your free book you must mail your complete application with correct remittance to the IEEE Computer Society, 10882 Los Vaqueros Circle, Los Alamitos, CA 90720.

Use the numbers to identify your plant activity and your own work. If more than one activity is involved, use the code number for the most prevalent. Note: If you select "other" for work and plant code or "other personnel" for job function code, be sure to explain on the lines provided.

WORK AND PLANT (Enter codes)

Plant

1. Large computers
2. Minicomputers
3. Microcomputers
4. Computer peripheral equipment
5. Data processing systems (system integration)
6. Office and business machines
7. Test, measurement, and instrumentation equipment
8. Communications systems and equip.
9. Navigation and guidance systems and equipment
10. Consumer entertainment electronic equipment
11. Consumer electronic appliances
12. Other consumer electronics
13. Industrial controls, systems, and equipment
14. Components and subassemblies
15. Materials and hardware
16. Aircraft, missiles, space and ground support equipment
17. Oceanography and support equipment
18. Medical electronics
19. Industrial companies within OEM incorporating electronics equipment in their end product, not elsewhere classified
20. Independent research, test, and design laboratory and consultant (only if you are not connected with a mfg. co.)
21. Government agency and military
22. Industrial companies using and/or incorporating any electronic products in their manufacturing, research, or development activities
23. Communication (radio, TV, police)
24. Transportation services (airline, railroads, etc.)
25. Computer and data processing services: service bureaus, software services, timesharing, consulting
26. All other commercial users
27. Power generation equipment, manufacturer
28. Power production (atomic, elec., etc.)
29. Power generation
30. Power transmission
31. Power distribution
32. Utility, except power (telephone, telegraph, pipelines, etc.)
33. Distributor
34. School, university, or library
35. Others (explain)

JOB FUNCTIONS (Enter code)

1. General and corporate management
2. Design and development engineering (circuits, components, equipment)
3. Engineering services evaluation (quality control, reliability standards, tests)
4. Member of Technical Staff (MTS)
5. Basic research
6. Manufacturing and production
7. Physicist, Scientist
8. Engineering support (draftsman, lab assistant, technician)
9. Purchasing and procurement
10. Marketing, including sales
11. Computer systems/ooperaion
12. Engineering systems planning and design (utilities)
13. Operations including construction and maintenance (utilities)
14. Consulting
15. Other "EE's"
16. Other engineers (explain)
17. Deep, professor, instructor, etc.
18. Student
19. Retired
