COMPUTER & CONTROL SYSTEMS RESEARCH
Group Leader Opportunity

SOHO is building an active program of research in computer and control systems, technologies and applications. As members of a dynamic organization, qualified candidates will develop research programs and conduct technology surveys and evaluations. Areas of interest include systems design, robotics, image processing, communications, instrumentation and control, and related subjects.

The ideal candidate must have:
- PhD in Electrical Engineering and/or Computer Science
- 10 years' experience with a strong background in computer and/or control systems
- Ability to work with scientists and engineers in developing, implementing and analyzing programs in an interdisciplinary environment

At our state-of-the-art Corporate Research Center near Cleveland, you will find a professionally rewarding work environment, attractive total compensation plan, comprehensive benefits, and the opportunity to make significant contributions to projects in which we hope to help meet our future energy needs and demands. SOHO’s relocation package for new hires who are homeowners includes a mortgage interest differential allowance, third party home purchase option, and other features often restricted to internal transfers.
