You need IEEE Computer Graphics and Applications —
the professional-level magazine devoted to designers and users of computer graphics hardware, software, and systems. Focuses on computer graphics research, technology, and practical use.

Expanded coverage in 1983:
IEEE CG&A is gearing up for full monthly publication. Your first three issues this year—January, March, and May—will incorporate the product supplement launched last year. Then, starting in July, you'll receive monthly issues—with a full complement of feature articles and our regular departments—packed with solid, in-depth coverage of such topics as computer animation, display technology, computer graphics and video, business graphics, selecting and implementing turnkey CAD systems, engineering design stations, and much more.

Here's how to subscribe:
If you are a member of any IEEE society, you can add IEEE Computer Graphics and Applications to your basic membership. If you are not a member, now is the time to join. See application on next page. CG&A is also the official membership journal of the National Computer Graphics Association and comes automatically with NCGA membership.
