In five days you can find out how to move years ahead in your field at the National Computer Graphics Association’s 1983 Conference and Exposition, Graphics at Work. From June 26–30, NCGA will bring the foremost experts in nearly every application of computer graphics together with over 200 exhibitors in the 300,000 square foot exhibit hall of McCormick Place in Chicago. The result will be five days packed with the knowledge and the technology to move you ahead—years ahead—in productivity, accuracy, creativity and profitability.

WE PUT GRAPHICS TO WORK FOR YOU
NCGA ’83 is designed to show you how to do more work, faster and better, with computer graphics. And that means you save time and money.

Whether you’re a beginner or an expert in this dynamic field there’s always something new. And we’ll have it at NCGA ’83.

Our technical sessions and tutorials will take you to the leading edge of technology. More than 65 sessions are offered covering current topics in Architectural CADD Biomedical Graphics Business and Scientific Graphics Defense Automation Educational CAD/CAM Legal Issues in Computer Graphics Mechanical CAD/CAM Pattern Recognition and Image Processing Printing and Publishing Scientific Cartography Shipbuilding CAD/CAM Statistical Graphics Videotechnology Visual Arts and Design

SEE GRAPHICS AT WORK AT THE SHOW
See the state-of-the-art, and beyond, in computer graphics technology for nearly every application. Talk with representatives of more than 200 premier worldwide marketers of computer graphics technology. Learn how their products can help you work smarter and easier with better results.

IT’S A WHOLE NEW WORLD
This is the pacesetter. NCGA ’83 is the largest U.S. conference devoted exclusively to computer graphics applications. It’s the only such event selected to participate in the Foreign Buyers Program sponsored by the U.S. Department of Commerce. People from all over the world are coming. Don’t you miss it.

NCGA ’83
Five stimulating days designed to make your job more productive, more rewarding—with computer graphics at work!
