Now your computer can see like a hawk...

for chicken feed!

Datacube boards give your CPU video I/O capability... economically.

Put sight in your present system by mating your computer with our Video Graphics boards. They digitize and display information in real time from standard video cameras for MULTIBUS™ and Q-BUS™ systems... without host computer intervention.

Datacube boards provide reliable, low cost vision for robotics, inspection, medical imaging, teleconferencing, animation, etc. Available for both monochrome and color monitors.

See how easy it is to make your computer see like a hawk.
