THE IMAGE MAKERS

Your system’s monitor is a window on its capabilities.
That’s why it’s so important to choose a monitor that’s equally capable. One that won’t compromise your quality image each time your system is turned on.

Mitsubishi makes it. In fact, we make a complete range of quality analog and digital monitors from 13” to 25” with features like automatic self convergence and ultrahigh resolution exceeding 2,000 lines.

One look, and you’ll know there’s no better way in sight to protect your investment in hardware and software.

So for CAD/CAM, Process Control Graphics, Data Display, Imaging, or any other application, choose from the monitor line our image is on.

Call or write for complete information today.
