Erratum

Dear Editor:

Please note that there are some errors in the Map_Beta2_Surface_To_Bezier procedure on page 55 in "The Beta2-spline: A Special Case of the Beta-spline Curve and Surface Representation" by Brian A. Barsky and Tony D. DeRose, IEEE CG&A, September 1985, pp. 46-58. The corrections are as follows:

- Lines 5 and 6: In the assignment statement for $W_{3,1}$, the term $V_{3,3}$ should be $V_{1,1}$.
- Lines 11 and 12: In the assignment statement for $W_{3,2}$, the term $V_{1,3}$ should be $V_{1,2}$.
- Lines 13 and 14: In the assignment statement for $W_{0,3}$, the term $V_{1,1}$ should be inserted after $V_{0,2}$ (that is, the three terms that are multiplied by $T_3$ are missing a fourth term of $V_{1,1}$).

Thank you very much for your attention to this matter.

Sincerely yours,
Brian A. Barsky
University of California, Berkeley
