The College of Staten Island
City University of New York

Computer Science Faculty Position

The Department of Computer Science invites applications for a full-time tenure track position beginning September 1, 1987. Qualifications include a relevant doctorate, evidence of successful teaching experience, and a record of research accomplishments. Candidates with a medical, clinical, or cognitive psychology background are preferred. Duties of the position include teaching at both the undergraduate and graduate level and participation in the department's growing research program in Knowledge Engineering, Neural Net Modeling, and Image Processing. Research facilities are available in the department as well as connection to the research facilities of the City University of New York. Applicants should submit a detailed curriculum vitae and the names of three references by May 1, 1987 to:

Dr. Richard Resch, Dean of Science and Technology, The College of Staten Island/CUNY, 130 Stuyvesant Pl., Staten Island, NY 10301.

An Equal Opportunity/Affirmative Action Employer

---

L. Piegl is an Alexander von Humboldt Research Fellow with the Applied and Computational Geometry Department at the Technical University Braunschweig, West Germany. From 1979 to 1984 he taught at the Technical University Budapest, Hungary. His research interests include computer graphics and computer-aided geometric design, with particular emphasis on the representation, approximation, and computation of curves and surfaces.

Piegl received an MS and a doctorate in mathematics from the Budapest University of Sciences, Hungary. He is a member of the American Mathematical Society, ACM, SIAM, the Computer Society of the IEEE, the Institute of Mathematics and its Applications, the British Computer Society, and Eurographics.
