This Coupon is Ugly.

If you think that this coupon leaves something to be desired, it does. Computerworld.

Just fill it out, and we'll send you a copy of Computerworld once a week. Every week. Fifty-two times a year.

We think that you should get all the news when it happens. Not when it happens to get to you.

And, our whole purpose in life is to keep pace with the fast moving computer industry.

So what we lack in coupon design, we more than make up for in news each week.
