COMPUTER

Volume 5, Number 4

FEATURES

16 Computer System Instrumentation and Performance Measurement
An introduction to this issue's special emphasis features by guest editor Jack E.
Shemer.

18 Workload Characterization and Selection in Computer Performance Measurements
Domenico Ferrari deals with the selection of representative workloads.

25 Hardware Monitoring of Real-Time Computer System Performance
Fred Arndt and G. M. Oliver present a case study of a real-time command and control system.

39 Instrumentation in Time-Shared Systems
Shemer teams up with John B. Robertson to elaborate further on the workload/performance perspective.

49 Industry Update: A COMPUTER magazine extra feature
Dale Mrazek explores the use of Tri-State IC's in the memories of microprogrammed computers.

DEPARTMENTS

1 From the President
3 Calendar
