December 5-7 - FALL JOINT COMPUTER CONFERENCE, IEEE Computer Society, AFIPS, Anaheim Convention Center, Anaheim, California. Contact: D.A. Meir, 1972 FJCC Technical Program, P.O. Box 835, Hawthorne, Ca. 90250.

Don't try to operate with only half a telephone

A phone left unanswered is worth only the plastic, metal, and noise it's made of . . . It's only half a phone until it's answered.

A professional answering service can do this for you . . . and provide the image your clients expect. An advantage you gain is that your phone is always covered and your calls are handled courteously and efficiently. A telephone secretary is trained to answer your calls pleasantly, take your messages, and handle any emergency. Don't operate your business with half a telephone - make total communications possible by using a telephone answering service.

For the best in Telephone Answering Service look in the Yellow Pages for those businesses displaying the ATAE* emblem.
