ANNOUNCING

a major new publication
in the field of computer science

IEEE TRANSACTIONS ON
SOFTWARE ENGINEERING

to be published quarterly in 1975 by
the IEEE Computer Society

Inaugural Issue: Volume 1, Number 1—March 1975

Editor: Raymond T. Yeh
Professor and Chairman, Computer Sciences Department
University of Texas at Austin

Editorial Board
Barry Boehm, TRW Systems
James C. Browne, University of Texas
Thomas Cheatham, Harvard University
Yaohan Chu, University of Maryland
E. F. Codd, IBM
C. A. R. Hoare, Queen's University of Belfast (Ireland)
Jack Goldberg, Stanford Research Institute
Seymour Jeffery, National Bureau of Standards
Donald Knuth, Stanford University
Harlan Mills, IBM
David Parnes, Technische Hochschule (West Germany)
C. V. Ramamoorthy, University of California at Berkeley
Douglas Ross, Softech, Inc.
Dick Simmons, Texas A&M University
Robert Simmons, University of Texas
Maurice V. Wilkes, University of Cambridge (England)
Niklous Wirth, Eidgenossische Technische Hochschule (Switzerland)
William Wulf, Carnegie-Mellon University

Devoted to the engineering aspects of computer software, the new Transactions will present state-of-the-art research papers in such specific areas as programming methodology, software testing and validation, performance and design evaluations, software development management, and programming and standards tools.

Membership Subscriptions
*Transactions on Software Engineering* is a publication option available to members of the IEEE Computer Society for $4 per year ($2 March through August). See membership application opposite page 11.

Non-member Subscriptions
*Transactions on Software Engineering* is also available to non-member subscribers, libraries, and other institutions for $24 per year. Enclose check or money order payable to IEEE and mail to IEEE Subscription Dept., 445 Hoes Lane, Piscataway, NJ 08854.
