Next month on the Queen Mary... A One-Day Tutorial on Microprogramming

sponsored by the IEEE Computer Society
Technical Committee on Microprogramming
at the Queen Mary Hyatt Hotel
Long Beach, California
May 17, 1975 (the Saturday before NCC)

Course outline & schedule

9:00 Introduction & Overview
Microprogramming Architecture and Languages
Break
11:00 Microprogram Production/Code Generation
Interpretive Execution (Emulation, Direct Execution)
12:30 Lunch
1:30 Microprogramming to Improve Computer Functions
Technologies to Support Microprogramming
Break
3:30 Review of Advantages & Disadvantages
Conclusions, Projections, Questions and Answers
5:30 End

Tutorial Speakers

J. Michael Galey has worked in microprogram support tool
development since 1965. As a member of IBM's Microprogramming
Support Staff in San Jose, he was responsible for developing and
implementing a variety of programming methodologies, and has held
a number of positions in the areas of logic and design automation
both in IBM's San Jose and Poughkeepsie facilities.

A member of ACM and the IEEE Computer Society, Galey
was chairman of the 11th Design Automation Workshop and the
Seventh Microprogramming Workshop (Micro 7). He is vice
chairman of ACM SIGMICRO and chairman of the Computer Society's
Technical Committee on Microprogramming.

Richard L. Kleir is Technical Director of Browne & Rama-
moorthy, Inc. During the past 10 years he has worked on
development of digital systems and done research on optimization
of microprograms.

An active member of both the IEEE Computer Society and
ACM, he is secretary of the Society's Technical Committee on
Microprogramming.

Kleir received a BSEE from the University of Texas at Austin.

1975 Queen Mary Microprogramming Tutorial
advance registration form
(advance registration closes May 12, 1975)

FEES (includes coffee breaks, lunch, and tutorial text)

☐ advance registration (members) $40
☐ advance registration (non-members) $50
☐ registration at the door (members) $60
☐ registration at the door (non-members) $75

Note: Non-members may apply $10 of their registration fees against Com-
puter Society membership dues if they join during the tutorial.

Name ____________________________________________

Organization ______________________________________

Address __________________________________________

City/State/Zip ______________________________________

Enclose check (payable to "Computer Society Queen Mary Tutorial") and
mail to IEEE Computer Society, 5755 Naples Plaza, #301, Long Beach, CA
90803.

NCC Attendees! The Queen Mary is only 40
freeway minutes away from the Anaheim Con-
vention Center, site of the 1975 National Com-
puter Conference.
