The '76 NCC Landmarks
June 7-10

This is the year of landmarks at the National Computer Conference, June 7-10 in New York. The '76 NCC . . . during our Nation's Bicentennial . . . will explore the latest trends in computer science and technology, systems and applications, societal concerns, EDP management, and professional issues. And that's only the beginning. Other landmarks include the largest exhibit program ever held at an NCC, plus the 25th anniversaries of both the first Joint Computer Conference and the first commercially available electronic digital computer.

Register now for the world's most comprehensive computer conference. More than 100 information-packed sessions will cover 12 major areas including complex systems, architecture and hardware, software, computer communications and networking, applications, and education. And more than 275 organizations will display their latest computer products and services on three floors of the New York Coliseum.

Heading five plenary sessions will be a keynote address by J. Paul Lyet, Chairman and Chief Executive Officer of Sperry Rand Corporation. In addition, the NCC will feature a variety of special events and activities, including a unique networking demonstration and a Pioneer Day Program paying tribute to individuals from the Moore School of Electrical Engineering. And for an added fee, program registrants may also choose among a number of Professional Development Seminars.

Apply now for the NCC Bicentennial Card covering all four days of the conference, including exhibits. You'll save $15 on full-conference registration. Just fill in the coupon for advance registration, or to get all the facts on the '76 NCC.
