
The fourth of a series of workshops on computer science and engineering education sponsored by the IEEE Computer Society, this proceedings covers new topics not treated before. In particular, it emphasizes implementations showing how CSE materials can be integrated into courses and laboratories of smaller institutions and community colleges. Topics include introduction to computing, micros and minis, systems analysis and design, software design techniques, computer-aided instruction, and new techniques using Fortran.

Non-members—$16.00  Members—$12.00

Hardbound volume of the six issues published during 1977 includes papers on such topics as methodology, languages, and performance modeling: short notes; and special collections on requirement analysis and pattern-recognition software.

Non-members—$29.95  Members—$22.50

Proceedings of the Third International Conference on Very Large Data Bases, October 6-8, 1977—570 pp.

The conference served as a forum for the exchange of ideas among users, designers, and researchers regarding data bases which are very large—both in terms of complexity of structure and physical size. The proceedings reflect traditional areas in VLDB and new research disciplines such as system distribution, very high level hardwares, design methodologies, and human interfaces. Both technical and survey papers are represented.

Non-members—$25.00  Members—$18.85

Recent Publications

This definitive work on software generation methodology and applications is a compilation of papers from 44 sessions comprising COMPSAC 77, the IEEE Computer Society’s First International Computer Software and Applications Conference. Both practical and abstract ideas on software generation methodology—requirements analysis and specification, life cycle modeling, and methodologies for designing, developing, testing, verifying, and validating software—were discussed. The application area topics vary from electronic funds transfer systems to control computer for energy management to medical information systems.

Non-members—$25.00  Members—$18.75

NEW ORDERING INFORMATION

- You may now order on your Visa/BankAmericard or Master Charge. See Multipurpose Order form.
- Members in Regions 8, 9, and 10 (Western Europe, Latin America, and the Pacific Basin) are entitled to a 50% discount off the non-member price (prepaid and charge/card orders only).
- Remember: member rates and 50% discounts apply on the first copy for personal use only. Additional copies of same title are sold at list price. No returns or refunds after 60 days from date of shipment (overseas, 90 days).
- Please allow 4 to 6 weeks for delivery.
