The magazine that puts microcomputing in your hands.

Technology has brought the computer within your grasp. Interface Age puts it in your hands.

The small businessman like yourself is aware of the progress made in microcomputing.

What you may not have is an update of what is happening in microcomputer development, and what discoveries might save you money and increase your computer's usefulness.

Interface Age has the information you need.

In issues you've missed we've presented...

- A way to improve your chances of success in a business venture.
- A complete general ledger and payroll accounting program with documentation.
- A new design for typewriter keyboards that obsoletes the electric typewriter.
- A program that can assist you in writing reports and letters.
- A program to plan your investment in income property.

Articles ranging from the fundamentals of computers to languages and system design, tutorials, activities, and new product releases to help you get started in microcomputing and keep up with the industry.
