Interested in REAL-TIME COMPUTER SYSTEMS?

Come to the SEVENTH TEXAS CONFERENCE ON COMPUTING SYSTEMS

October 31 - November 1, 1978
Continuing Education Center
The University of Houston
Houston, Texas

Are you involved in the design and development of real-time systems and looking for solutions to your problems? Are you looking for a new problem area for research and development? Would you like to know more about the most important new application of computers in the future?

If so, please come to the 7th Texas Conference on Computing Systems. This conference will bring together researchers and practitioners to discuss the problems related to real-time systems and ideas for further development. Sessions are projected on the following subjects:

- Real-time programming
- Verification and validation
- Real-time operating systems
- Distributed computing
- Multiprocessor systems
- Digital process control
- Real-time application of microcomputers

Also, a pre-conference tutorial on Software Methodology will be presented by Professors C. V. Ramamoorthy and Raymond T. Yeh on October 30, 1978.

sponsored by:
Dept. of Computer Science
University of Houston
Houston, Texas
Dept. of Computer Science
Southern Methodist Univ.
Dallas, Texas
Depts. of Computer Science
and Electrical Engineering
The University of Texas
Austin, Texas

in cooperation with:

IEEE COMPUTER SOCIETY

and

acm

Be sure to obtain the registration form and a copy of the program by writing to Prof. J. C. Huang, Conference Chairman, Seventh Texas Conference, Dept. of Computer Science, University of Houston, Houston, Texas 77004, or call (713) 749-2856/4791.
