ADVANCED TECHNOLOGY SEMINARS ANNOUNCED...

If you're involved in the specification, design, development and maintenance of computer software, you'll probably be interested in one or more of these new Advanced Technology Seminars.

• Software Testing Techniques. The latest technological developments, tools and techniques, and management perspectives on Software Quality Assurance through Testing. WASHINGTON, D.C. 16-17 OCTOBER 1978
SAN FRANCISCO, CALIFORNIA 30 NOVEMBER - 1 DECEMBER 1978

• Automated Tools for Software Engineering. An in-depth survey of commercial and non-commercial tools and methodologies that apply to the software development life-cycle. SAN FRANCISCO, CALIFORNIA 9-10 NOVEMBER 1978

• Software Design Techniques. Modern methods of design, abstraction, modularity, decomposition and representation fitted into a coherent methodology with case studies. SAN FRANCISCO, CALIFORNIA 2-3 NOVEMBER 1978

Price for each attendee is $425 including lunch both days, a detailed notebook and reading list, and appropriate 'offprints' from the technical literature.
