“Any Goal That Can Be Operationalized Can Be Achieved”

Career development requires careful planning. If you are considering career alternatives, Winter, Wyman and Company can be your first step in reaching for new goals, new challenges, new environments, new levels of responsibility and new rewards. Now or in the future.

Winter, Wyman is a full service Employment Consulting firm well equipped to specialize in the placement of computer professionals. Our business and reputation is built upon trust, capability and high standards of professional practice. This reputation allows us to maintain excellent working relationships with a very broad range of clients in the computer industry, including computer vendors, users, peripheral manufacturers, system houses, software houses, engineering and research firms.

Even if you are not considering an immediate job change, your planning begins now. The following is only a partial listing of positions for which we are seeking qualified applicants.

Software Development

SOFTWARE MANAGERS To 33K
Several for Real-Time Systems, Operating Systems, some project management positions.

REAL TIME SOFTWARE To 28K
Assembly language, microprocessors, minicomputers, large systems applications. Many good opportunities for technical growth or management.

INTERACTIVE GRAPHICS To 30K
Develop the state-of-the-art for one of the top manufacturers of interactive graphics systems. Minicomputer or microprocessor background, communications experience a plus.

UNIX SYSTEMS PROGRAMMER To 25K
Young, dynamic consulting company seeking good systems knowledge of UNIX. Good growth opportunity, unusual company environment.

DATA BASE PROGRAMMERS To 28K
Many opportunities at all levels of experience. Design development, maintenance of file control, indexed sequential access methods, etc. Background in IMS, IDMS, TOTAL, NOMAD.

COMMUNICATIONS-MANAGER To 30K
Great opportunity for communications “guru” who wants to manage a communications area. Responsible for supervising 6-8 people in dynamic environment.

COMMUNICATIONS SPECIALISTS To 27K
All levels of communications experience. Microprocessor and mainframe applications. Networking, protocols, State-of-the-art. Innovative company, potential management opportunities.

OPERATING SYSTEMS ENGINEERS To 28K
Some exceptional positions. Experience in on-line or real-time Operating Systems desirable. Some microprocessor development opportunities.

DIAGNOSTIC PROGRAMMERS To 28K
Design, develop and debug State-of-the-art diagnostic programs. Heavy assembly language. Field engineering background applicable.

SOFTWARE TECHNICAL WRITERS To 25K
Several interesting positions for experienced Tech. Writers. Data Base and file control knowledge a plus.

LANGUAGE/COMPILER DEVELOPMENT To 33K
Consulting companies to mainframe manufacturers. In-depth knowledge of JOVIAL, PASCAL, FORTRAN helpful. Good opportunities for creativity.

Contact: Sally Jablon Silver

Electrical Engineers

ENGINEERING MANAGER, SYSTEMS INTERCONNECT To 36K
Major computer vendor. Direct group of 18 engineers developing advanced BUS structures and signal transmission technologies for advanced computers.

ENGINEERING SUPERVISOR To 29K
Manage development team for CAD/CAM systems.

MICROPROCESSOR SYSTEMS/GROUP LEADER To 34K
Technical leadership for micro based system with line management of hardware and software engineers.

ELECTRO-OPTICAL DESIGN To 33K
State-of-the-art proprietary terminal device.

COMPUTER ARCHITECTS To 32K
BS/MSEE 3-5 yrs. exp. dev. mini systs. family with advanced micro programmed CPU architecture. Have major impact in the develop. of new family of computer systems.

SR. LOGIC DESIGN ENGINEERS To 25K
BSEE 3 yrs. design exp. in peripheral device controllers/interfaces, mini or micro interface design. Floppy Disc, PDP-11, NOVA, 8080, Z80 exp. desired.
