You are invited to submit a paper for presentation at the Annual Computer Networking Symposium sponsored by the IEEE Computer Society Technical Committee on Computer Communication and the Institute for Computer Sciences and Technology of the NBS. The Symposium will highlight papers of practical and research experiences concerning both computer and communications networks. All papers will be reviewed by the Program Committee and a Best Paper Award will be presented on the day of the Symposium. Papers accepted for presentation will be published in the Symposium Proceedings.

Papers which are of a tutorial nature, which describe practical experiences with computer networks and network applications, or which present new research results are desired covering a wide range of topics, including:

- Analysis Techniques
- Applications
- Architecture
- Authentication Techniques
- Communication Networks
- Design Techniques
- Distributed Data Bases
- Economics of Networks
- Encryption Techniques
- Interfaces
- Interoperability
- Interprocess Communications
- Local Data Networks
- Measurement
- Modeling and Simulation
- Network Security
- Processor Security
- Protocols
- Reliability
- Requirements Specification
- Satellite Communications
- Standards
- Survivability

**AUTHOR’S SCHEDULE**

July 15, 1979
Submit 4 copies of 1,000 word abstract of the paper to:
Dr. Vijay Ahuja
E96/B629
IBM Corporation
Research Triangle Park
North Carolina 27709
(Phone: 919-836-2842)

August 1, 1979
Notification of provisional acceptance.

September 15, 1979
Final, camera-ready copy due.

December 12, 1979
Symposium held.

Please INCLUDE your return address and phone number.
