National Bureau of Standards
Gaithersburg, Maryland
May 29, 1980

Papers which are of a tutorial nature, which describe practical experiences with computer network protocols or which present new research results are desired covering a wide range of topics, including:

- Architectural Models
- Individual Protocol Models
- High-Level Protocols
- Verification
- Standardization
- Performance Evaluation
- Transport/Backbone Network Protocols

The symposium is sponsored by the Institute for Computer Sciences and Technology, National Bureau of Standards; the IEEE Computer Society, Washington, D.C., Chapter; and the IEEE Washington Section.

Dates

January 15, 1980
Three copies of 1000 word abstract to:
Dr. John F. Heafner
