Systems Analyst & Scientific Programmers

Unusual opportunities in seismic applications.

ARCÔ Oil and Gas Company, a major division of Atlantic Richfield, has both aggressive exploration and industry-pacing seismic data acquisition programs.

This emphasis . . . and the need to expand and further refine our seismic data processing capabilities . . . have created excellent growth opportunities in our Geophysical Analysis and Processing and Geophysical Research Groups located in our research laboratories in Plano, Texas, a Dallas suburb. Specific openings are for:

Geophysical Programmer

Join our experienced and expanding team of geophysical programmers and be involved in the design, development and implementation of advanced seismic processing techniques using IBM 3033, IBM 4300 or SEL 32/77 systems. Some applications will involve the use of interactive graphics devices.

Position requires BS in Geophysics, Mathematics, Computer Science or related sciences, plus at least two years of scientific programming experience and knowledge of FORTRAN. Familiarity with Assembly language helpful.

Systems Analyst

Working in large geophysical DP environment, you will perform systems analyses to insure optimum efficiency, conduct software/hardware studies to evaluate new technology and assist in the formulation of future plans.

Position requires BS in Computer Science (or equivalent experience), knowledge of OS/MVS and IBM hardware, and five or more years experience on a large-scale computer system, with the last two years spent as an operating systems analyst on a large IBM computer complex.

Scientific Programmer—R&D

Be responsible for supporting our seismic research group. Scope includes coding for analytical studies, assisting in programming and general processing of seismic data, and aiding project engineers in the coordinated development of advanced seismic processing software.

Position requires a BS or MS in Geophysics, Mathematics, Computer Science or related sciences, with a strong working knowledge of FORTRAN. Knowledge of JCL and TSO helpful.

Each position offers substantial salary/benefits package and liberal relocation coverage. For prompt consideration and confidential handling, send your resume and salary history to: Mr. R. L. Milam, ARCO Oil and Gas Company, P.O. Box 2819, Dallas, Texas 75221.

ARCO Oil and Gas Company

Division of Atlantic Richfield Company

An equal opportunity employer.
