SOFTWARE ENGINEERING
STANDARDS APPLICATIONS
WORKSHOP

Call for Papers

YOU ARE INVITED to participate in a limited attendance workshop discussing the impact as well as the practical application of SOFTWARE ENGINEERING STANDARDS in an industrial environment. Papers which summarize the impact of or experience with the application of software engineering standards are sought for presentation.

Suggested topics include:
• The Selling of Standards
• The Drive to Standards
• Process Standardization vs Product Standardization
• Standards/Guidelines/Recommended Practices/Tradeoffs
• Unrealizable Standards
• Standards Enforcement
• Standards—Help or Hindrance?
• Realistic Standards
• Cost Effectiveness
• Standards Development and Compilation
• Factors in Standards Selection and Tailoring
• Effectiveness of Standards Use
• The Case Against Standards

Papers on other topics relevant to the theme of the workshop will be given full consideration.

Participation in this workshop will be limited to presenters of accepted papers and invited speakers and/or panelists.

ORGANIZATIONAL COMMITTEE
Workshop Chairman
R. Poston, Electronic Associates, Inc.
Publicity/Publications
S. Gloss-Soler, IIT Research Institute
Local Arrangements/Registration
D. Webdale, GTE Products Corporation
Treasurer
H. Hayman, IEEE Computer Society
Technical Program
T. Hannan, FAA

SUBMISSION OF PAPERS

Five copies of each presentation proposal are requested. Proposals should consist of a 750-word summary; final papers should be about 3000 words in length. Include address and office and/or home phone numbers. Proposals for presentations should be mailed by January 26, 1981. Acceptance notification and author kits will be sent by March 30, 1981. Camera-ready copy of accepted papers will be due May 25, 1981.

All accepted papers will be published in the proceedings of the workshop.
