Dear Colleague:

Recently I received a mailing from the IEEE Computer Society which urged me to join on the basis of avoiding "technical obsolescence." I thought that would never happen to me because I felt that ACM offered all the publications I need plus ample opportunities for contacts with the cream of the field.

But I joined the IEEE Computer Society because I felt it would be a good idea to receive Computer regularly and get price discounts on the Computer Society's conference proceedings and tutorial texts. I came to the conclusion that joint membership is advantageous because no single organization has a corner on the information market, and because membership in both organizations will sharpen my competitive edge in the computing community.

But it works both ways...

If you're not already a member of ACM there's never been a better time to join. You'll be able to read the new "Computing Practices" section in Communications of the ACM, our flagship publication that you automatically receive as a member. This section contains material of direct and immediate interest to practitioners. As an ACM member you may select from a growing number of prestigious journals and special publications at significantly reduced rates.

How much does it cost to stay on top of the computing world? Surprisingly little. If you're a member of IEEE and the Computer Society you can take advantage of our joint membership discount rate of $23* ($5 less than the regular $28 dues rate). IEEE Computer Society Members do not need two sponsors; just fill out the enclosed application, including your IEEE-CS Member Number, and join with 3,500 other IEEE Computer Society Members who have already discovered that ACM is the perfect complement to IEEE Computer Society Membership!

Cordially,

Thomas A. D'Auria
Chairman, ACM Membership Committee

*P.S. Take advantage of this nominal rate now. Dues will be increased Jan. 1, 1981, and the rates on the application will be honored only until Dec. 31, 1980. Mail the adjacent application today!
ACM MEMBERSHIP APPLICATION

Association for Computing Machinery, P.O. Box 12105, Church Street Station, New York, N.Y. 10249, (212) 265-6300

ACM, the perfect complement to IEEE-Computer Society membership!

There's never been a better time to join ACM. Why?
1) Communications of the ACM, our flagship publication you receive as part of your membership dues, has added a new and informative "Computing Practices" section that contains material of direct and immediate interest to practitioners.
2) Members of the IEEE-CS other than Affiliates with "NS" member #s and students, may join ACM for only $23.00 (act now before dues go up in January). By virtue of your IEEE-CS membership, you automatically become a Voting Member of ACM and the signatures of two ACM members are not required.
3) As a Member of ACM you may subscribe to prestigious journals and special publications, and join any number of Special Interest Groups (SIG membership includes a Newsletter subscription) at significantly reduced rates.
4) You can get involved in Chapter activities. Contact ACM headquarters: ACM, 1133 Ave of the Americas, New York, NY 10036, for a Chapter and Special Interest Group reference guide.

Join ACM now before the dues go up Jan. 1, 1981. The rates on this application will be honored until Dec. 31, 1980.

Extra Subscriptions & Overseas Air Service. All members automatically receive the monthly Communications of the ACM. The member copy of Communications is sent to Europe and western Pacific countries via air at no extra charge. Extra subscriptions to Communications and other ACM publications may be ordered at the rates indicated below. Overseas members residing in South and Central America, the Mid-East and Africa may order airmail service for their member copy of Communications by checking the box and entering $18 on line B.

CLASS OF MEMBERSHIP
Member/Associate (See Member Certification on reverse side) $28.00
Student Member $9.00
Important: Student Member $5 Dues Credit
Student members who subscribe to the Journal of the ACM, Computing Surveys or Computing Reviews are entitled to a dues credit of $5.00 toward one of these publications. If you wish to subscribe to any of these publications, check the appropriate box(es) below, enter the subscription rate(s) indicated, and enter $4.00 as your dues payment on line A.

Joint Membership Discount
(see "Joint Membership Dues" section on reverse side)

Spouse Membership Benefit (check here and see dues instructions on reverse side. Include the appropriate amount on line A.)

Overseas Members: See reverse side of application for payment instructions.

Payment must accompany application. Please make checks payable to ACM, Inc., P.O. Box 12105, Church Street Station, New York, N.Y. 10249. ACM Chapter Dues are paid locally. Obtain list of local Chapters from Headquarters.

Mail List Restriction (optional). ACM occasionally makes its membership list available to companies and other societies for computer-related mailings. If you wish to restrict the use of your name for these purposes, please check one of the following: [ ] ACM announcements only 2. [ ] ACM and other societies' announcements only

I hereby affirm that I subscribe to the purposes of the ACM (as indicated on the reverse side) and understand that my membership is not transferable. I enclose a check, bank draft or money order for the full amount. (Application must be signed)

DUES AND PRICES
Effective until 12/31/80

Association for Computing Machinery, P.O. Box 12105, Church Street Station, New York, NY 10249 • (212) 265-6300
PURPOSES OF THE ASSOCIATION

(1) To advance the sciences and arts of information processing including, but not restricted to, the study, design, development, construction, and application of modern technology, computing techniques and appropriate languages for general information processing, storage, retrieval, transmission/communication, and processing of data of all kinds, and for the automatic control and simulation of processes.

(2) To promote the free interchange of information about the sciences and arts of information processing both among specialists and the public in the best scientific and professional tradition.

(3) To develop and maintain the integrity and competence of individuals engaged in the practice of information processing.

The methods of the Association for achieving these purposes include, but are not restricted to, formation of Chapters and Special Interest Groups, holding of meetings for the presentation and discussion of papers, and the publication of journals, books, and other materials.

CLASSES OF MEMBERSHIP—Qualifications and Privileges

Voting Member: Persons qualified to be Members: a) subscribe to the purposes of ACM; b) have attained professional stature as demonstrated by intellectual competence and ethical conduct in the arts and sciences of information processing; c) have earned a Bachelor’s Degree or academic equivalent, or have four years full time experience in information processing; d) are endorsed by two sponsors who are Voting Members of ACM and who attest to the above. A Voting Member may vote and hold office in the Association.

Associate Member: Persons qualified to be Associate Members subscribe to the purposes of the Association. Associate Members have the same privileges and benefits as Members except the right to vote and hold office in the Association.

Student Member: Individuals registered in an accredited educational institution full time are qualified for Student Membership. Payment of dues must be accompanied by certificate of full time student status. Student Members have the same privileges as Associate Members. A Student Member upon graduation may become a voting Member of the Association by paying the Member rate.

Member Certification: Certification is the means by which ACM is assured that its voting Members and Student Members satisfy the qualifications for these classes of membership. If you are unable to complete the voting Member certification form at this time, simply mail your membership application (along with your dues payment) to ACM Headquarters. We will start your services and mail back to you an Associate Membership card along with the name of the local ACM Chapter Chairman and Regional Representative who will be pleased to assist you in your orientation and certification. You may request a Certification Form from ACM Headquarters and submit it separately at any time. Applicants for Student Membership must have the Student Member Certification complete when submitting their membership application and dues.

Member (Voting) Certification: The applicant for voting membership must satisfy one of the following and obtain signatures of two members (Voting) of the Association for Computing Machinery.

1. Bachelor’s Degree. Educational Institution: ____________________________

2. Equivalent level of education. Educational Institution: ____________________________

3. Four full time years of experience in the arts and sciences of information processing. Attach Statement.

We attest that, to the best of our knowledge, the above information is correct, the applicant subscribes to the purposes of ACM and has attained professional stature by demonstrating intellectual competence and ethical conduct in the arts and sciences of information processing.

Name (Please print) ____________________________ Signature ____________________________ Date ____________________________

Name (Please print) ____________________________ Signature ____________________________ Date ____________________________

Student Member Certification: I hereby certify that the applicant is a full-time student at the educational institution cited below.

Faculty Advisor’s Signature ____________________________ Date ____________________________

Educational Institution ____________________________ Date ____________________________

Spouse Membership: Spouses who are both Voting Members and/or Student Members of ACM may elect to receive only one copy of Communications by paying the following dues, which should be entered on the total dues line (A, on front):

Member: 1st person at $28.00 (Includes Communications); 2nd person at $15.50 (No Communications)

Student: 1st person at $9.00 (Includes Communications); 2nd person at $5.00 (No Communications). The $5.00 dues credit explained under “Class of Membership” (on front) will also apply if a subscription to the Journal, Computing Surveys, or Computing Reviews is taken. Be sure to give the name and member number of your spouse. In applying for membership at the same time, applications with total fees must be submitted together. ACM will coordinate the periodicals assigned.

Spouse’s Name (Please print) ____________________________ Spouse’s Member No. ____________________________

The Association for Computing Machinery is an equal opportunity employer. Membership is open to any individual meeting the qualifications set forth by the Constitution and Bylaws of the Association without regard to race, color, religion, sex, and other similar factors.

Joint Membership Dues A candidate for Membership (Voting) who is a current member of the computing societies of Canada (CIPS), Australia (ACS), Germany (GI), United Kingdom (BCS), Israel (IPA) or Italy (AIAC) is entitled to reduced annual dues of $22.40. A rate of $23.00 is available to Members (not Affiliates) of the IEEE Computer Society. If you are a member of one of these societies, please sign the following statement and enter the appropriate dues on line “A” on the front of this application.

I certify that I am currently a member of ________________ and entitled to joint membership dues. (Only one reduction permitted.)

Signature ____________________________ Member No. ____________________________

SPECIAL INTEREST GROUPS

The major organizational units of ACM devoted to technical activities of its members are the Special Interest Groups (SIGs). SIGs are described in a Reference Guide available from ACM Headquarters, 1133 Avenue of the Americas, New York, N.Y. 10036.

Code No. Voting Student

001 SIGACT (Automata and Computation Theory) 2.50 2.50

002 SIGARCH (Computer Architecture) 10.00 10.00
