PROFESSIONAL
DEVELOPMENT
SEMINARS
NATIONAL COMPUTER CONFERENCE
McCORMICK INN, CHICAGO, IL, MAY 4-7, 1981

A unique opportunity to keep current with the rapidly developing interrelationship of business and computer technology.

These wide-ranging sessions will cover technical, legal, management, productivity and motivational areas as well as new perspectives on the state of the art.

Conducted by twenty-three authoritative speakers, these seminars cover topics as diverse as minicomputers and security mechanisms; managing word processing and computer graphics; computer law and structured programming and concepts. For your personal career advancement, you will gain a better understanding of time management, personnel supervision, even packaging your image for success!

Look over the seminar titles and attend as many sessions as you can — for your own productivity!
