Call for papers for Computer

Researchers for Allen, Gaithersburg, 1000-word paper on parallel and distributed processing for December 1982. Papers are solicited on all aspects of parallel and distributed processing, including logic circuits, architectures, interconnections, fault tolerance, languages and compilers, operating systems, data bases, numerical and non-numerical algorithms, performance studies, and relevant VLSI technology. Submit five copies of a manuscript by January 1, 1982, to Guest Editors Prof. Ming T. Liu or Prof. Jerome Rothstein, Dept. of Computer and Information Science, The Ohio State University, 2036 Neil Ave., Columbus, OH 43210; (614) 292-1837 or 422-7027.

Sixth International Conference on Software Engineering: September 13-16, 1982, Tokyo, Japan. Two $1000 prizes will be awarded for the best papers. Send five copies of each paper (6000 words or short paper 3000 words) by January 15, 1982, to Prof. Victor R. Basili, Dept. of Computer Science, University of Maryland, College Park, MD 20742.

PRIP '82—Conference on Pattern Recognition and Image Processing: June 13-17, 1982, Anaheim, California. Send four copies of a long paper (6000 words) or short paper (3000 words) by January 25, 1982, to Dr. Richard P. Kruger, Los Alamos National Laboratory, Los Alamos, NM 87545.

IEEE 1982 International Conference on Circuits and Computers (ICC): September 29-October 1, 1982, New York, New York. For regular papers, submit four copies of a 35-word abstract and a 300- to 500-word summary, with figures, by April 5, 1982. For short papers, submit a 35-word abstract by May 3, 1982.
