You may know us.

We're involved in all aspects of software, hardware, and systems engineering for communications systems.

We're Computer Sciences Corporation.

If your talents, skills, and education encompass program management, communications systems engineering or computer processing systems, get to know us better.

At the Systems Division of CSC, our communications systems activities involve jobs on a world wide basis — from the subway in Washington, D.C. to the oilfields of Saudi Arabia. Our involvement in data communications and telecommunications range from small, local-area-networks in support of office automation to massive, world wide packet-switching systems.

We have built and designed communications systems that involve the most advanced technologies including PROTOCOLS, TRANSMISSION SUBSYSTEMS, HARDWARE, SOFTWARE, SECURITY AND ANALYSIS. And the application of our communications expertise spans a wide variety of applications including: LARGE SCALE NETWORKS, INDUSTRIAL AUTOMATION, MASS TRANSIT AUTOMATION and VOICE COMMUNICATIONS.

Opportunities for career advancement exist for experienced professionals and entry-level personnel in all areas of our communications systems activities.

We're the Systems Division of Computer Sciences Corporation.
