ACM
Computer Science Conference
SIGSCE Technical Symposium on Computer Science Education
February 15–18, 1983
Sheraton Twin Towers
Orlando, Florida

VLSI Session – Tuesday, February 15
  Keynote Address
H. T. Kung, Carnegie Mellon University
"VLSI: The Interface Between Hardware and Software"

TECHNICAL PAPERS
Gregory Pfister, IBM Yorktown Heights Research Center
"Special Purpose Hardware, Parallel Processing, DA Algorithms"

John Ousterhout, University of California at Berkeley
"VLSI Tools and Architecture"

Programming Environments Session – Wednesday, February 16
  Keynote Address
John R. Mashey, Bell Laboratories
"Perspectives on Programming Environments"

TECHNICAL PAPERS
Adele J. Goldberg, Xerox PARC
"The Influence of an Object Oriented Language on the Programming Environment"

Richard Thall, Softech, Inc.
"Large Scale Software Development with the ADA Language System"

Research Funding Session – Thursday, February 17
"Funding in Experimental Computer Science"
Presentations by Representatives from NSF, DOD and Industry

Technical Symposium on Computer Science Education
February 17-18, 1983

All who are interested in Computer Science Education are invited to participate in this Symposium. Panel discussions, papers to be delivered, and presentations by guest speakers will range across the broad spectrum of topics in Computer Science Education.

Other CSC 83 ACTIVITIES
Abstract Sessions – Tuesday and Wednesday, February 15, 16
Employment Register – Deadline for Submission of Forms is January 13, 1983
Exhibits, Student Programming Contest, Department Chairmen’s Luncheon, Conference Luncheon, EPCOT, Disney World, and lots of good weather

Eastern Airlines is offering special conference discounts of approximately 30%
