An invitation to attend

**1983 REAL-TIME SYSTEMS SYMPOSIUM**

**Sponsors:**
- IEEE Computer Society
- TC Database Systems
- TC Distributed Computing Systems
- TC Fault-Tolerant Computing
- TC Operating Systems
- TC Real-Time Systems
- TC Software Engineering

**Scope:** This symposium addresses the design and development of real-time systems. Real-time systems generally perform high-speed data acquisition and control with distributed computing networks. This is a three-day sequel to the 1982 Real-Time Systems Symposium.

**December 6-8, 1983 • Marriott Crystal Gateway Hotel • Arlington, Virginia (Washington D.C. Area)**
