CALL FOR PAPERS

1985 ACM SYMPOSIUM ON SMALL SYSTEMS

Radisson Ferncroft Hotel Danvers, MA May 2-3, 1985

Sponsored by ACM/SIGSMALL

The interests of SIGSMALL cover all areas of minis and micros from fabrication to use in homes and offices. This year's symposium will present people and topics from industry and academia representing the latest research and technology in personal and small computers.

We solicit papers addressing (but not limited to) such areas as:

Software Tools

(e.g., symbolic debuggers, language-specific editors)

System Languages/Support Environments

(e.g., Ada™, UNIX™, Forth, C, Pascal, Modula)

Graphics/Graphics Languages

(e.g., person/machine interaction, low-cost hardware, Smalltalk™, LOGO)

Architecture/Operating Systems/Distributed Systems

(e.g., database machines, workstations, office automation)

Communications/Networking

(e.g., local area networks, communications servers)

Applications

(e.g., games, music, text/word processing)

Papers should be original and no longer than 5000 words — about 20 double-spaced pages. Reviewing will be done by the program committee. Proceedings will be distributed at the symposium.

Paper Submission Deadline: October 5, 1984

Acceptance Notification: December 15, 1984

Camera-Ready Final Paper Due: January 22, 1985

Please send four copies of a paper to:

Dr. Jacob Slonim
GEAC Computers
350 Steelcase Road West
Markham, Ontario
Canada L3R 1B3

Authors of accepted papers will be expected to sign an ACM copyright release form.

To complement and enhance participation in the symposium, two tutorials will be organized to immediately precede (May 1, 1985) the symposium.

The symposium chairperson is:

Fred Maryanski, EECS Dept., U-157,
University of Connecticut, Storrs CT 06268.
