CALL FOR PAPERS

1985 Symposium on
LOGIC PROGRAMMING
Boston, Massachusetts, July 15-18, 1985

Sponsored by the IEEE Computer Society
and its Technical Committee on Computer Languages

The symposium will cover fundamental principles and important innovations in the design, definition, and implementation of logic programming systems and applications. Of special interest are papers related to parallel processing. Other topics of interest are (but are not limited to) FGGs, distributed control schemes, expert systems, natural language processing, systems programming, novel implementation techniques, and performance issues.

Authors should send 8 copies of their manuscript, plus an extra copy of the abstract, to:

John Conery
Department of Computer and Information Science
University of Oregon
Eugene, OR 97403

Paper length should be 8-20 typed, double spaced pages, including figures and abstract. Submissions will be considered on the basis of appropriateness, clarity, originality, significance, and overall quality.

Deadline for submission of papers is November 16, 1984. Authors will be notified of acceptance or rejection by March 8, 1985, and camera ready copy must be returned by May 10, 1985. Authors of accepted papers will be expected to sign a copyright release form.

Proposals for full or partial day tutorials are also being solicited. Send a one to three page proposal to John Conery by November 16.

Conference Chairman
Doug DeGroot
IBM T. J. Watson Research Center
