

International Symposium on NEW DIRECTIONS IN COMPUTING

August 12-14, 1985
NORWEGIAN INSTITUTE OF TECHNOLOGY
Trondheim, Norway

This international symposium is organized around the theme of presenting state-of-the-art developments in computer systems and applications with the ability for technical transfer to the industrial environment. Presentations will address current research and development in the areas listed, and the experiences, both good and bad, in transferring such work from the research environment to the industrial environment. Presentations will be 1 hour in length with time for discussion of each paper.
