The 7th International Conference on Distributed Computing Systems

BERLIN (West), Germany, 21 – 25th September 1987
International Congress Center Berlin

call for papers

The Conference

ICDCS 87 is dedicated to various aspects of distributed computing systems, one of the most challenging domains of computer science. The Conference is a milestone for reviewing the state of the art at international level and outlining the future technical developments in distributed systems.

Tutorials will be offered on the first two days of this International Conference and keynote speakers will be invited to address the developments in Europe, America and Asia.

The conference and tutorials will be held at the International Congress Center Berlin. Historic Berlin, celebrating its 750th anniversary in 1987, will offer an exciting environment for other activities (festivals, exhibitions, entertainment).

Areas of interest

The 7th ICDCS will embrace the theory, design and implementation of distributed systems.

Subject areas include:
- decentralized computer architectures
- communication architectures and protocols
- distributed operating systems and system software
- distributed applications
- distributed database systems
- software engineering and languages for distributed systems
- reliability, fault tolerance and security
- modelling and performance evaluation
- theory and formalism

Information for Authors

Authors are requested to submit five copies (in English) of their double-spaced typed manuscript (max. 20 pages) as follows:

If you are in Europe or Africa, send to:
G. LE LANN
E/A Program Chairman
INRIA Rocquencourt BP 105
78153 Le Chesnay Cedex, France
Phone (33) 39 63 53 64

If you are in America (North or South), Asia or Australia, send to:
K. H. (Kane) Kim
A/AIA Program Chairman
Computer Engineering Program
Dept. EE, Room 544B
University of California, Irvine
Irvine, CA 92717 USA
Phone (714) 856-4821
COMPMAIL: K. KIM

The Conference proceedings will be published by the IEEE Computer Society. Authors of all accepted papers will be expected to sign a copyright release form. Selected papers of exceptional interest and merit will be considered for publication in one of the major IEEE journals.

In addition to papers, proposals for one day tutorials are solicited in any of the conference topics. Such proposals should be submitted by January 1, 1987 to:
Earl E. Swartzlander, Jr. or L. Pouzin
TRW Defense Systems Gr. or CNET Centre Paris A
One Space Park 02/2791 or 38-40 Rue de Gen. Leclerc
Redondo Beach, CA 90278 or 9231 Issy le Moulineaux
USA or France

Important Dates:
January 1, 1987: submission deadline for papers and tutorials
May 30, 1987: deadline for paper acceptance notification
