No Silver Bullet

Fred Brooks on Avoiding Horrors in the Software Engineering Process
TECHNICAL SESSIONS
Exploring issues of interest to the UNIX® technical community, these sessions provide a forum for presentation and discussion on a variety of topics. Topic areas include, but are not limited to:

- Kernel enhancements, measurements, etc.
- Programming languages and environments
- UNIX in the office environment
- Standards and portability
- New mail systems (e.g. X.400-based systems or user interfaces incorporating new interface paradigms)
- Applications, especially unusual ones such as computer aided music, factory automation, etc.
- Security
- UNIX vs. the naive user
- Workstations: comparisons, experiences, trends
- Beyond UNIX — what next?

TUTORIALS
The USENIX Association will offer its well respected, in-depth tutorial program on June 8 and June 9. Presented by leading experts, the tutorials provide detailed examination of several areas of UNIX technology. Topics include:

- 4.3BSD and System V Internals
- Networking Developments
- Windowing Schemes
- UNIX System Implementations
- Software Development Tools
- Graphics
- Intermediate and Advanced UNIX and C Programming
- Administration of Systems and Networks

VENDOR EXHIBITION
The USENIX Association’s annual Vendor Exhibition will be held June 9–11 at the Phoenix Civic Plaza. The primary intent of this Exhibition is to provide vendors an opportunity to display advanced technology in hardware and software innovations relevant to the UNIX technical community.

A multi-vendor networking capability will allow communication between participating vendors. State of the art networking features will be demonstrated.

THE SPONSOR
The USENIX Association is an international technical and professional organization devoted to fostering innovation with a historical and present UNIX bias. It promotes the exportation and importation of ideas, encourages research that works and problem-solving with a practical bias.

Plan now to attend the 1987 Summer USENIX Conference and Exhibition for the latest in UNIX applications and research.

The Professional and Technical
UNIX Association

For complete conference details, call: (213) 592-1381 or (213) 592-3243 or write: USENIX Conference Office, P.O. Box 385, Sunset Beach, CA 90742
