

Innovative Technology for Computer Professionals

Computer

Volume 36, 2003

SUBJECT INDEX

A

Accessibility
Improving Web Accessibility [Column], E.T. Loiacono, Jan., pp. 117-119

Adaptive processing
Dynamically Tuning Processor Resources with Adaptive Processing, D.H. Albonese et al., Dec., pp. 49-58

GRACE: A Cross-Layer Adaptation Framework for Saving Energy [Sidebar], D.G. Sachs et al., Dec., pp. 56-57

Managing Multiple Low-Power Adaptation Techniques: The Positional Approach [Sidebar], M.C. Huang et al., Dec., pp. 52-53

Reconfiguring Wireless Phones with Adaptive Chips [News], L.D. Paulson, Sept., pp. 9-11

Aerodynamics

Leave Bernoulli Out of This [Opinion], B. Colwell, May, pp. 10-12

Aerospace computing

NASA Advances Robotic Space Exploration, D.S. Katz and R.R. Some, Jan., pp. 52-61

Aesthetic computing

Nurturing Next-Generation Computer Scientists [Column], P. Fishwick, Dec., pp. 132-134

Agent technology

Evolutionary Entertainment with Intelligent Agents [Column], D.B. Fogel, June, pp. 106-108

Ontology-Mediated Integration of Intranet Web Services, T.M. Tsai et al., Oct., pp. 63-71

Taking Back Cyberspace [Column], J.M. Bradshaw et al., July, pp. 89-92

Agile software development, see also **Software engineering**
Agile Software Development: It's about Feedback and Change [Guest Editors' Intro], L. Williams and A. Cockburn, June, pp. 39-43

Agility through Discipline: A Debate, K. Beck and B. Boehm, June, pp. 44-46

Introducing an Agile Process to an Organization, M. Cohn and D. Ford, June, pp. 74-78

Migrating Agile Methods to Standardized Development Practice, M. Lycett et al., June, pp. 79-85

Algorithms

Comparison of Three Vertical Search Spiders, M. Chau and H. Chen, May, pp. 56-62

Protecting Cryptographic Keys: The Trace-and-Revoke Approach, D. Naor and M. Naor, July, pp. 47-53

Solving Awari with Parallel Retrograde Analysis, J.W. Romein and H. Bal, Oct., pp. 26-33

Artificial intelligence

Artificial Intelligence: Arrogance or Ignorance? [Column], N. Holmes, Nov., pp. 120, 118-119

Artificial Intelligence: Hype or Reality? A.A. Hopgood, May, pp. 24-28

Data Mining for Very Busy People, T. Menzies and Y. Hu, Nov., pp. 22-29

Researchers Automate the Digital Animation Process [News], L.D. Paulson, Apr., p. 24

Using AI in Games that Adapt to Users [News], L.D. Paulson, July, p. 21

Authentication

Microsoft .NET Passport: A Security Analysis, R. Oppliger, July, pp. 29-35

A Trusted Open Platform, P. England et al., July, pp. 55-62

Automation

CPXe: Web Services for Internet Imaging, T. Thompson et

al., Oct., pp. 54-62

Ontology-Mediated Integration of Intranet Web Services, T.M. Tsai et al., Oct., pp. 63-71

Autonomic computing

DARPA Creating Self-Aware Computing [News], L.D. Paulson, Mar., p. 24

The Vision of Autonomic Computing, J.O. Kephart and D. Chess, Jan., pp. 41-50

B

Battery-aware design

Battery Modeling for Energy-Aware System Design, R. Rao et al., Dec., pp. 77-87

Benchmarking, see **Performance measurement and evaluation**

Biology and medical computing

Computer Electronics Meet Animal Brains, C. Diorio and J. Mavoori, Jan., pp. 69-75

Fighting Epidemics in the Information and Knowledge Age [Column], H. Zhuge and X. Shi, Oct., pp. 116, 114-115

Finding Optical Fiber in the Deep Blue Sea [News], L.D. Paulson, Nov., pp. 18-19

C

Cache memory

Dynamically Tuning Processor Resources with Adaptive Processing, D.H. Albonese et al., Dec., pp. 49-58

A Popularity-Based Prediction Model for Web Prefetching, X. Chen and X. Zhang, Mar., pp. 63-70

Scaling Web Services with Capacity Provision Networks, X. Geng et al., Nov., pp. 64-72

Client-server systems

Energy Management for Commercial Servers, C. Lefurgy et al., Dec., pp. 39-48

Metadata's Role in a Scientific Archive, J. Thomson et al., Dec., pp. 27-34

A Popularity-Based Prediction Model for Web Prefetching, X. Chen and X. Zhang, Mar., pp. 63-70

Reducing Disk Power Consumption in Servers with DRPM, S. Gurumurthi et al., Dec., pp. 59-66

Cluster computing

Energy Conservation in Clustered Servers, R. Bianchini and R. Rajamony [Sidebar], Dec., pp. 44-45

Solving Awari with Parallel Retrograde Analysis, J.W. Romein and H. Bal, Oct., pp. 26-33

Codesign

A Decade of Hardware/Software Codesign, W. Wolf, Apr., pp. 38-43

Domain-Specific Codesign for Embedded Security, P. Schaumont and I. Verbauwhede, Apr., pp. 68-74

Electronic System-Level Design: Challenges on the Road Ahead [Sidebar], D. Nadamuni, Apr., pp. 36-37

High-Level Language Abstraction for Reconfigurable Computing, W.A. Najjar et al., Aug., pp. 63-69

The Softening of Hardware, F. Vahid, Apr., pp. 27-34

SystemC Cosimulation and Emulation of Multiprocessor SoC Designs, L. Benini et al., Apr., pp. 53-59

Taking on the Embedded System Design Challenge [Guest Editors' Intro], J. Henkel et al., Apr., pp. 35-37

Toward IP-Based System-Level SoC Design [Column], J. Kunkel, May, pp. 88-89

Commercial off-the-shelf (COTS) products

Rigorous Evaluation of COTS Middleware Technology, I. Gorton et al., Mar., pp. 50-55

Communication systems

Context-Aware Communication, A. Ranganathan and

H. Lei, Apr., pp. 90-92

Computer architecture

Challenges in Computer Architecture Evaluation, K. Skadron et al., Aug., pp. 30-36

Designing Computer Architecture Research Workloads, L. Eeckhout et al., Feb., pp. 65-71

Energy Management for Commercial Servers, C. Lefurgy et al., Dec., pp. 39-48

How Many System Architectures? [Column], W. Wolf, Mar., pp. 93-95

Programmable Stream Processors, U.J. Kapasi et al., Aug., pp. 54-62

Computer crime

On Piracy and Privacy [Guest Editor's Intro], S. Srinivasan, July, pp. 36-38

Preventing Piracy, Reverse Engineering, and Tampering, G. Naumovich and N. Memon, July, pp. 64-71

Using Web Crawlers to Fight Piracy [News], L.D. Paulson, Sept., pp. 16-17

Computer graphics

The GPU Enters Computing's Mainstream [Column], M. Macedonia, Oct., pp. 106-108

Computer languages

The Battle over the Universal Java IDE [News], S.J. Vaughan-Nichols, Apr., pp. 21-23

High-Level Language Abstraction for Reconfigurable Computing, W.A. Najjar et al., Aug., pp. 63-69

Java in High-Performance Environments [Column], B. Ghahramani and M. Pauley, Sept., pp. 109-111

Sun Tries to Guide Mobile Java [News], Apr., L.D. Paulson, p. 25-26

Computer networks, see also Internet

Grids, the TeraGrid, and Beyond, D.A. Reed, Jan., pp. 62-68

Computers and Communications: A Symbiotic Relationship, R.M. Janowiak, Jan., pp. 76-79

Scaling Web Services with Capacity Provision Networks, X. Geng et al., Nov., pp. 64-72

Copy protection

Picturing a New Encryption Technique [News], L.D. Paulson, Jan., p. 29

Protecting Intellectual Property in Digital Multimedia Networks, A.M. Eskicioglu, July, pp. 39-45

Technical Challenges of Protecting Digital Entertainment Content, C.B.S. Traw, July, pp. 72-78

D

Data mining

CARE: An Automobile Crash Data Analysis Tool, A.S. Parrish et al., June, pp. 22-32

Data Mining for Very Busy People, T. Menzies and Y. Hu, Nov., pp. 22-29

Data security

Databases that Heal Themselves [News], L.D. Paulson, Feb., p. 22

How Trustworthy Is Trusted Computing? [News], S.J. Vaughan-Nichols, Mar., pp. 18-20

Protecting Cryptographic Keys: The Trace-and-Revoke Approach, D. Naor and M. Naor, July, pp. 47-53

Security in Storage [Column], J. Hughes and J. Cole, Jan., pp. 124-125

Taking Back Cyberspace [Column], J.M. Bradshaw et al., July, pp. 89-92

Taking Steps to Secure Web Services [News], D. Geer, Oct., pp. 14-16

A Trusted Open Platform, P. England et al., July, pp. 55-62

XrML's Role in Information Piracy Prevention and Privacy Protection [Sidebar], X. Wang and T. DeMartini, July, p. 74

Design engineering

Design Patterns for Ubiquitous Computing [Column], J.A. Landay and G. Borriello, Aug., pp. 93-95

Design Reviews [Opinion], B. Colwell, Oct., pp. 8-10

Electronic System-Level Design: Challenges on the Road Ahead [Sidebar], D. Nadamuni, Apr., pp. 36-37

Ground Bounce [Opinion], B. Colwell, Mar., pp. 11-13

A Man, a Dog, and a Machine [Opinion], B. Colwell, Jan., pp. 14-16

Taking on the Embedded System Design Challenge [Guest Editors' Intro], J. Henkel et al., Apr., pp. 35-37

Design methodology

Uncovering Hidden Contracts: The .NET Example, K. Arnout and B. Meyer, Nov., pp. 48-55

Display technologies

Fostering a Symbiotic Handheld Environment, M. Raghunath et al., Sept., pp. 56-65

New Electronic Paper Can Display Moving Images [News], L.D. Paulson, Dec., pp. 24-26

New Monitor Technologies Are on Display [News], S. Ortiz Jr., Feb., pp. 13-16

Sharp Develops a 3D Display for Cell Phones and Computers [News], L.D. Paulson, June, p. 19

Distance learning

Will Distance Learning Create a Global University? [Column], V. Milutinovic and N. Skundric, Mar., pp. 100, 98-99

Distributed computing

ANTS Framework for Cooperative Work Environments, P.G. López and A. Skarmeta, Mar., pp. 56-62

Grids, the TeraGrid, and Beyond, D.A. Reed, Jan., pp. 62-68

Federated Approach Expands Database-Access Technology [News], D. Geer, May, pp. 18-20

Toward Internet Distributed Computing, M. Milenkovic et al., May, pp. 38-46

E

Economics

Bringing Copyright into the Information Age [Column], S. Santini, Aug., pp. 104, 102-103

Companies Look for Unit of Computing Consumption [News, sidebar], L.D. Paulson, Oct., p. 19

Multiple Online Auctions [Column], Y.A. Tung et al., Feb., pp. 100-102

Value-Based Software Engineering: A Case Study, B. Boehm and L. Huang, Mar., pp. 33-41

Education, computer uses in

Handhelds Go to School: Lessons Learned, D. Tatar et al., Sept., pp. 30-37

Students Help Put a Computer in Every Classroom [News, sidebar], L.D. Paulson, Mar., p. 24

Will Distance Learning Create a Global University? [Column], V. Milutinovic and N. Skundric, Mar., pp. 100, 98-99

VeGame: Exploring Art and History in Venice, F. Bellotti et al., Sept., pp. 48-55

Education, computers and information science

The Computing Profession at a Crossroads [Column], V.N. Gudivada, May, pp. 92, 90-91

The Information Systems Research Cycle [Column], A.R. Hevner and S.T. March, Nov., pp. 111-113

Metadata Standards for Educational Resources [Column], M. McClelland, Nov., pp. 107-109

Nurturing Next-Generation Computer Scientists [Column], P. Fishwick, Dec., pp. 132-134

Shaping an Entertaining Future at Carnegie Mellon [Column], J. Schell, Aug., pp. 96-98

Education, engineering and science

How Not to Teach Science [Opinion], B. Colwell, Nov., pp. 7-9

Science Fairs [Opinion], B. Colwell, Apr., pp. 13-16

That's Not Computing—This Is Computing [Opinion], B. Colwell, June, pp. 6-8

Electronic commerce

Evaluating Servers with Commercial Workloads [Guest Editors' Intro], K. Keeton et al., Feb., pp. 29-32

Multiple Online Auctions [Column], Y.A. Tung et al., Feb., pp. 100-102

TPC-W E-Commerce Benchmark Evaluation, D.F. García and J. García, Feb., pp. 42-48

Electronic design automation

Closing the SoC Design Gap [Column], J. Henkel, Sept., pp. 119-121

Electronic System-Level Design: Challenges on the Road Ahead [Sidebar], D. Nadamuni, Apr., pp. 36-37

Metropolis: An Integrated Electronic System Design Environment, F. Balarin et al., Apr., pp. 45-52

Taking on the Embedded System Design Challenge [Guest Editors' Intro], J. Henkel et al., Apr., pp. 35-37

Toward IP-Based System-Level SoC Design [Column], J. Kunkel, May, pp. 88-89

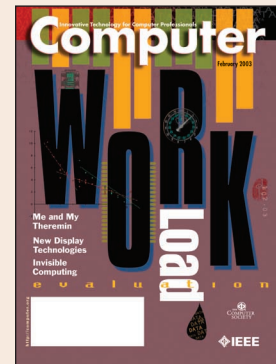

Electronic mail

Group Considers Drastic Measure to Stop Spam [News], L.D. Paulson, July, pp. 21-22

Spammers Begin Sending Viruses with their Junk Mail [News], L.D. Paulson, Aug., p. 26

Electronic messaging

Context-Aware Communication, A. Ranganathan and

H. Lei, Apr., pp. 90-92
 Instant Messaging Puts on a Business Suit [News], G. Lawton, Mar., pp. 14-16
 Presence Technology: More than Just Instant Messaging [News], S.J. Vaughan-Nichols, Oct., pp. 11-13
Electronic publishing
 Weblogs: Simplifying Web Publishing [Column], C. Lindahl and E. Blount, Nov., pp. 114-116
Embedded systems
 Closing the SoC Design Gap [Column], J. Henkel, Sept., pp. 119-121
 Computer Electronics Meet Animal Brains, C. Diorio and J. Mavoori, Jan., pp. 69-75
 Configurable Processors for Embedded Computing [Column], N. Dutt and K. Choi, Jan., pp. 120-123
 Domain-Specific Codesign for Embedded Security, P. Schaumont and I. Verbauwhede, Apr., pp. 68-74
 Formal Methods in Embedded Design [Column], S.D. Johnson, Nov., pp. 104-106
 How Many System Architectures? [Column], W. Wolf, Mar., pp. 93-95
 The Softening of Hardware, F. Vahid, Apr., pp. 27-34
 Taking on the Embedded System Design Challenge [Guest Editors' Intro], J. Henkel et al., Apr., pp. 35-37
Engineering, see also **Design engineering**
 Engineering Decisions [Opinion], B. Colwell, Aug., pp. 9-11
 Engineering, Marketing Teams, and Management [Opinion], B. Colwell, Sept., pp. 5-7
 Me and My Theremin [Opinion], B. Colwell, Feb., pp. 8-9

That's Not Computing—*This* Is Computing [Opinion], B. Colwell, June, pp. 6-8
 Tools of the Trade [Opinion], B. Colwell, July, pp. 7-9
Entertainment computing
 The Coming Revolution in Massively Multiuser Persistent Worlds [Column], R. Gehorsam, Apr., pp. 93-95
 The GPU Enters Computing's Mainstream [Column], M. Macedonia, Oct., pp. 106-108
 Minifilm Festival for Handheld Devices [News], L.D. Paulson, May, p. 23
 Revitalizing Museums with Digital Technology [Column], M. Macedonia, Feb., pp. 94-96
 Shaping an Entertaining Future at Carnegie Mellon [Column], J. Schell, Aug., pp. 96-98
 Technical Challenges of Protecting Digital Entertainment Content, C.B.S. Traw, July, pp. 72-78

Extreme programming, see **Software engineering**

F

Formal methods
 A Formal Approach to MpSoC Performance Verification, K. Richter et al., Apr., pp. 60-67
 Formal Methods in Embedded Design [Column], S.D. Johnson, Nov., pp. 104-106

G

Games
 The Coming Revolution in Massively Multiuser Persistent Worlds [Column], R. Gehorsam, Apr., pp. 93-95
 Evolutionary Entertainment with Intelligent Agents [Column], D.B. Fogel, June, pp. 106-108
 Solving Awari with Parallel Retrograde Analysis, J.W. Romein and H. Bal, Oct., pp. 26-33
 Using AI in Games that Adapt to Users [News], L.D. Paulson, July, p. 21
 VeGame: Exploring Art and History in Venice, F. Bellotti et al., Sept., pp. 48-55
 Will Wireless Gaming Be a Winner? [News], N. Leavitt, Jan., pp. 24-27
Grid computing
 Grids, the TeraGrid, and Beyond, D.A. Reed, Jan., pp. 62-68
 Toward Internet Distributed Computing, M. Milenkovic et al., May, pp. 38-46

Groupware

ANTS Framework for Cooperative Work Environments, P.G. López and A. Skarmeta, Mar., pp. 56-62
 Interactive Workspaces [Column], B. Johanson et al., Apr., pp. 99-101

H

Handheld devices
 Battery Modeling for Energy-Aware System Design,

R. Rao et al., Dec., pp. 77-87
 Context-Aware Mobile Communication in Hospitals, M.A. Muñoz et al., Sept., pp. 38-46
 Fostering a Symbiotic Handheld Environment, M. Raghunath et al., Sept., pp. 56-65
 Handheld Computing [Guest Editors' Intro], B.A. Myers and M. Beigl, Sept., pp. 27-29
 Handhelds Go to School: Lessons Learned, D. Tatar et al., Sept., pp. 30-37
 Software Architectural Support for Handheld Computing, N. Medvidovic et al., Sept., pp. 66-73
 VeGame: Exploring Art and History in Venice, F. Bellotti et al., Sept., pp. 48-55
Hardware-software codesign, see **Codesign**
History
 Bringing Copyright into the Information Age [Column], S. Santini, Aug., pp. 104, 102-103
 A Decade of Hardware/Software Codesign, W. Wolf, Apr., pp. 38-43
 Iterative and Incremental Development: A Brief History, C. Larman and V. Basili, June, pp. 47-56
Human factors
 A Man, a Dog, and a Machine [Opinion], B. Colwell, Jan., pp. 14-16

I

IEEE

IEEE Foundation Donates Over US\$425,000 to Projects [CS Connection], M-L.G. Piner, Feb. p. 75
 IEEE Names Fellows for 2003 [CS Connection], M-L.G. Piner, Feb., pp. 72-73
 IEEE President-Elect Candidates Answer Questions on Critical Governance Issues [CS Connection], Sept., pp. 83-88
 Virginia Teen Wins IEEE Presidents' Scholarship with MHD-Based DC Transformer [CS Connection, sidebar], B. Ward, Aug., p. 79
IEEE Computer Society
 Board of Governors Approves Reading of Bylaws Amendment [CS Connection], M-L.G. Piner, Apr., p. 77
 Board of Governors Approves Technical Committee on Bioinformatics [CS Connection], M-L.G. Piner, Feb., p. 76
 Building a Better Computer Society [President's Message], S.L. Diamond, Jan., pp. 8-10
 Building on the Past, Looking to the Future [EIC's Message], D.L. Carver, Jan., pp. 6-7, 10
 Computer Society Board of Governors Approves Reading of Proposed Bylaw Changes [CS Connection], B. Ward, Aug., pp. 78-79
 Conferences Explore Key Computing Topics [CS Connection], B. Ward, May, pp. 78-80
 Cray, Kanai Awards Recognize Achievement in High-Performance Computing and Distributed Systems [CS Connection], B. Ward, June, pp. 89-91
 Engel Voted IEEE Computer Society President-Elect [CS Connection], B. Ward, Dec., pp. 100-101
 IEEE Computer Society Election: Nominees for IEEE Computer Society Office and Board of Governors, Sept., pp. 75-81
 IEEE Computer Society Recognizes Certified Software Development Professionals [CS Connection], Oct., pp. 82-82
 Looking Forward [President's Message], S.L. Diamond, Dec., pp. 12-13
 New Distance Learning Catalog Features Wireless, Microsoft .NET Courses [CS Connection], M-L.G. Piner, Mar., p. 72
 New Education Board Mission Statement Highlights Increased Vitality [CS Connection], M-L.G. Piner, Apr., p. 76
 New Journals Address Biology, Security [CS Connection], B. Ward, Oct., pp. 81-82
 Russian Teen Wins Top IEEE Computer Society Prize at Intel Science Fair [CS Connection], B. Ward, Aug., pp. 77-78
 Service, Education, and Technical Awards Honor Outstanding Achievements [CS Connection], B. Ward, July, pp. 79-80
 Students from around the World Receive Scholarship Funds [CS Connection], M-L.G. Piner, Apr., p. 75
IEEE Computer Society International Design Competition
 CSIDC 2003 World Finals Projects in Brief [Sidebar], B. Ward, August, p. 16
 CSIDC Challenge Receives \$1,000,000 Donation from

Microsoft [CS Connection], M-L.G. Piner, Apr., p. 76
Tablet-PC Classroom System Wins Design Competition [News], B. Ward, Aug., pp. 15-19
Universities from around the World Compete in CSIDC 2003 [CS Connection], T. Manuel, Mar., p. 73

Industry trends

Andhra Pradesh: Lessons for Global Software Development, K. Eischen, June, pp. 31-37
The Ins and Outs of New Local I/O Trends [News], L.D. Paulson, July, pp. 13-16
Instant Messaging Puts on a Business Suit [News], G. Lawton, Mar., pp. 14-16
Low-Power Chips for High-Powered Handhelds [News], L.D. Paulson, Jan., pp. 21-23
New Monitor Technologies Are on Display [News], S. Ortiz Jr., Feb., pp. 13-16
Optical Networking Chips Get Faster in a Slow Market [News], L.D. Paulson, Apr., pp. 18-20
OSs Battle in the Smart-Phone Market [News], S.J. Vaughan-Nichols, June, pp. 10-12
Presence Technology: More than Just Instant Messaging [News], S.J. Vaughan-Nichols, Oct., pp. 11-13
Reconfiguring Wireless Phones with Adaptive Chips [News], L.D. Paulson, Sept., pp. 9-11
Seeking Better Web Search Technologies [News], S.J. Vaughan-Nichols, Aug., pp. 19-21
Will Fuel Cells Replace Batteries in Mobile Devices? [News], L.D. Paulson, Nov., pp. 10-12
XML Raises Concerns as It Gains Prominence [News], S.J. Vaughan-Nichols, May, pp. 14-16

Information retrieval

Comparison of Three Vertical Search Spiders, M. Chau and H. Chen, May, pp. 56-62
Metadata's Role in a Scientific Archive, J. Thomson et al., Dec., pp. 27-34
New Search Engines Keep Humming Along [News, sidebar], L.D. Paulson, Apr., p. 26
Search in Vain: Challenges for Internet Search [Column], H. Tirri, Jan., pp. 115-116
Seeking Better Web Search Technologies [News], S.J. Vaughan-Nichols, Aug., pp. 19-21
Technological Solutions for Protecting Privacy [Column], R.J. Bayardo and R. Srikant, Sept., pp. 115-118
Ubiquitous Recommendation Systems [Column], D.W. McDonald, Oct., pp. 111

Information technology

The Information Systems Research Cycle [Column], A.R. Hevner and S.T. March, Nov., pp. 111-113

Instant messaging, see Electronic messaging

Integrated circuitry

Chip Makers Turn to Multigate Transistors [News], L.D. Paulson, Feb., p. 23
A Decade of Hardware/Software Codesign, W. Wolf, Apr., pp. 38-43
The Softening of Hardware, F. Vahid, Apr., pp. 27-34

Intellectual property, see also Copy protection, Legal issues

Dual Tragedies: IP Rights in Industry Standards, D. Lin, Feb., pp. 25-27
Protecting Intellectual Property in Digital Multimedia Networks, A.M. Eskicioglu, July, pp. 39-45

Interactive systems

The Coming Revolution in Massively Multiuser Persistent Worlds [Column], R. Gehorsam, Apr., pp. 93-95

Internet

FAST Approach Could Accelerate Internet Downloads [News], L.D. Paulson, Aug., pp. 27-28
Integrating Mobile IP with Ad Hoc Networks, Y-C. Tseng et al., May, pp. 48-55
Mobile IPv6 and the Future of Wireless Internet Access [News], S.J. Vaughan-Nichols, Feb., pp. 18-20
SCTP: A Proposed Standard for Robust Internet Data Transport, A.L. Caro Jr. et al., Nov., pp. 56-63
Search in Vain: Challenges for Internet Search [Column], H. Tirri, Jan., pp. 115-116
Toward Internet Distributed Computing, M. Milenkovic et al., May, pp. 38-46

J

Java, see Computer languages

K

Knowledge-based systems

The Business Rule Approach [Column], R.G. Ross, May, pp. 85-87

L

Legal issues, see also Computer crime, Intellectual property
Bringing Copyright into the Information Age [Column], S. Santini, Aug., pp. 104, 102-103
Proponents Drop Support for Controversial Software Proposal [News], L.D. Paulson, Oct., p. 18
US Court Establishes Protection against Reverse Engineering [News], L.D. Paulson, Sept., p. 16

M

Machine learning

Using Machine-Learning Methods for Musical Style Modeling, S. Dubnov et al., Oct., pp. 73-80

Machine translation

Statistical Language Approach Translates into Success [News], S.J. Vaughan-Nichols, Nov., pp. 14-16

Management, business

The Business Rule Approach [Column], R.G. Ross, May, pp. 85-87
Engineering, Marketing Teams, and Management [Opinion], B. Colwell, Sept., pp. 5-7
Managing IT with Systems Thinking [Column], A. Dutta, Mar., pp. 96-97

Medical computing, see Biology and medical computing

Memory management

Energy Management for Commercial Servers, C. Lefurgy et al., Dec., pp. 39-48

VIM: Taming Software with Hardware, M. Halpern, Oct., pp. 21-25

Microprocessors and microprocessor design

Benchmarking Internet Servers on Superscalar Machines, Y. Luo et al., Feb., pp. 34-40
Benchmarking Next-Generation Switch Fabrics [Column], I. Elhanany and V. Tabatabaee, Oct., pp. 109-110
Computer Electronics Meet Animal Brains, C. Diorio and J. Mavoori, Jan., pp. 69-75
Configurable Processors for Embedded Computing [Column], N. Dutt and K. Choi, Jan., pp. 120-123
A Decade of Hardware/Software Codesign, W. Wolf, Apr., pp. 38-43
Dynamically Tuning Processor Resources with Adaptive Processing, D.H. Albonese et al., Dec., pp. 49-58
The GPU Enters Computing's Mainstream [Column], M. Macedonia, Oct., pp. 106-108
GRACE: A Cross-Layer Adaptation Framework for Saving Energy [Sidebar], D.G. Sachs et al., Dec., pp. 56-57

Leakage Current: Moore's Law Meets Static Power, N.S. Kim et al., Dec., pp. 68-75

Low-Power Chips for High-Powered Handhelds [News], L.D. Paulson, Jan., pp. 21-23

Programmable Stream Processors, U.J. Kapasi et al., Aug., pp. 54-62

The Softening of Hardware, F. Vahid, Apr., pp. 27-34

Switch Fabric Interfaces [Column], I. Elhanany et al., Sept., pp. 106-108

Xerox Hopes Chip Will Cut Costs of Fiber Services [News], L.D. Paulson, June, p. 18

Middleware

Federated Approach Expands Database-Access Technology [News], D. Geer, May, pp. 18-20

Rigorous Evaluation of COTS Middleware Technology, I. Gorton et al., Mar., pp. 50-55

Mobile communications

Integrating Mobile IP with Ad Hoc Networks, Y-C. Tseng et al., May, pp. 48-55

Mobile IPv6 and the Future of Wireless Internet Access [News], S.J. Vaughan-Nichols, Feb., pp. 18-20

Next-Generation Wearable Networks, R.L. Ashok and D.P. Agrawal, Nov., pp. 31-39

Software Radios Add Flexibility to Wireless Technology [News], S. Ortiz Jr., Aug., pp. 23-25

Mobile computing

Going Mobile with Web Services [News], L.D. Paulson, Feb., p. 24

Handheld Computing [Guest Editors' Intro], B.A. Myers and M. Beigl, Sept., pp. 27-29

OSs Battle in the Smart-Phone Market [News], S.J. Vaughan-Nichols, June, pp. 10-12

Software Architectural Support for Handheld Computing, N. Medvidovic et al., Sept., pp. 66-73

Taking Back Cyberspace [Column], J.M. Bradshaw et al., July, pp. 89-92

Modeling

- Battery Modeling for Energy-Aware System Design, R. Rao et al., Dec., pp. 77-87
Ten Reasons to Use Divisible Load Theory, T.G. Robertazzi, May, pp. 63-68

Multiprocessor systems

- Energy Management for Commercial Servers, C. Lefurgy et al., Dec., pp. 39-48
