ANNUAL INDEX

Volume 39, 2006

SUBJECT INDEX

A
Agent technologies

Ajax techniques

Application integration

Application platforms

Application server software
Mathematical Server Sizing [Column], D. Brodine, July, pp. 91-93.
Archibald, R.C.
George Stebbins's Values and R.C. Archibald's Slide Rule [Column], D.A. Grier, Jan., pp. 11-13.

Assistive technologies
Assistive Embedded Technologies [Column], P. Narasimhan, July, pp. 85-87.

Authentication and key exchange protocols

Autonomic computing
Self-Managing Software [Column], M.G. Hinchey, Dec., pp. 57-61.

Autonomous vehicles
On the Importance of Being Contextual, P. Lombardi et al., Dec., pp. 30-38.

To Drive Is Human, I. Miller et al., Dec., pp. 52-56.

VisLab and the Evolution of Vision-Based UGVs, M. Bertozzi et al., Dec., pp. 31-38.

Awards
Computer Society Honors Oklahoma Teen at Intel Science Fair [CS Connection], B. Ward, July, pp. 67-70.

NC State Team Wins $20,000 CSIDC Prize [Report to Members], B. Ward, Aug., pp. 13-16.

NC State Team Wins $20,000 CSIDC Prize [Report to Members], B. Ward, Aug., pp. 13-16.

CellML

Chaos
tics

Clinical software engineering
Coping with Defective Software in Medical Devices, S.R. Rakitin, Apr., pp. 40-45.
Ensuring Patient Safety in Wireless Medical Device Networks, V. Gehlot and E.B. Sloane, Apr., pp. 54-60.

High-Confidence Medical Device Software and Systems, I. Lee et al., Apr., pp. 33-38.

Cognitive radios

Communication technologies

Computational photography
Computational Photography—The Next Big Step [Guest Editor’s Introduction], O. Bimber, Aug., pp. 28-29.

Computer architectures
Good Ideas, through the Looking Glass, N. Wirth, Jan., pp. 28-39.

Computer intelligence

Computers and education
Building a Game Development Program, L. Argent et al., June, pp. 32-60.

Computers and education
Building a Game Development Program, L. Argent et al., June, pp. 32-60.

Educatin the Next Generation of Game Developers [Guest Editor’s Introduction], M. Zyda, June, pp. 30-34.

Game Design Education: Integrating Computation and Culture, J. Murray et al., June, pp. 43-51.
Games with a Purpose [Column], L. von Ahn, June, pp. 92-94.

Play-Centric Games Education, T. Fullerton, June, pp. 43-51.
What Have We Not Learned about Teaching Programming? [Column], D. Gries, Oct., pp. 81-82.

Computers and society
Across the Great Divide [Column], D.A. Grier, July, pp. 8-10.

The Benefits of Being Different [Column], D.A. Grier, Nov., pp. 6-8.

The Captured Imagination [Column], D.A. Grier, June, pp. 7-9.
**E-government services**

**E-health**

**E-mail**

**EIC's message**

**ESL design**

What's in a Name [Column], J.M. Paul, Mar., pp. 87-89.

**Education**

**Elastic task model**

**Elections**

IEEE Computer Society Election [Report to Members], Sept., pp. 73-80.

IEEE President-Elect Candidates Respond to Questions on Governance Issues [CS Connection], Sept., pp. 81-86.

**Embedded computing**

Assistive Embedded Technologies [Column], P. Narasimhan, July, pp. 85-87.

**Embedded systems**

**Emergency navigation**

**Energy-adaptive displays**

**Enterprise system development**

The Data Doughnut and the Software Hole [Column], N. Holmes, June, pp. 100, 98-99.

**Design patterns**

The Problem with Threads, E.A. Lee, May, pp. 33-42.

**Digital media curricula**

Building a Game Development Program, L. Argent et al., June, pp. 52-60.

**Developing the Next Generation of Game Developers**

[Guest Editor’s Introduction], M. Zyska, June, pp. 30-34.

**Evolving the Artist-Technologist**

**Game Design Education**

 Integrating Computation and Culture, J. Murray et al., June, pp. 43-51.

Play-Centric Games Education, T. Fullerton, June, pp. 36-42.

**Digital photography**

**Display technology**

It’s the End of the Tube as We Know It [Column], M. Macedonia, June, pp. 83-85.

**Dynamic voltage scaling**

**DARPA Grand Challenge**

**Data storage**

Synchronization Options for Data Warehouse Designs, I.C. Italiano and J.E. Ferreira, Mar., pp. 53-57.

The Technology of Stashing Data [Column], N. Holmes, Oct., pp. 120, 118-119.

**Data-centric computation**

Petascale Computational Systems [Column], G. Bell et al., Jan., pp. 110-112.

**Debugging**

The Device Software Engineer’s Best Friend [Column], M. Lindahl, May, pp. 95-97.

**Digital cameras**

**Dynamic cameras**

**Distributed systems**

ANNUAL INDEX

Entertainment computing
Detecting Ads in Video Streams Using Acoustic and Visual Cues [Column], M. Cowell et al., Dec., pp. 135-137.
Games and Technology: Developing Synergy [Column], N. Gershon et al., Dec., pp. 129-130.
Games with a Purpose [Column], L. von Ahn, June, pp. 92-94.
Google Becomes an Entertainment Company [Column], M. Macedonia, Feb., pp. 101-103.
It’s the End of the Tube as We Know It [Column], M. Macedonia, June, pp. 83-85.
Moving Beyond HD [Column], M. Macedonia, Oct., pp. 115-117.

FLOSS projects
Assessing the Health of Open Source Communities [Column], K. Cronowitz and J. Howison, May, pp. 89-91.
Fabric on a chip

FieldML
File sharing
The Technology Underlying Podcasts [Column], L.J. Patterson, Oct., pp. 103-105.
Flash memory
Improved Flash Memory Grows in Popularity [News], G. Lawton, Jan., pp. 16-18.
The Technology of Stashing Data [Column], N. Holmes, Oct., pp. 120, 118-119.
Formal methods
Verified Software: A Grand Challenge [Column], C. Jones et al., Apr., pp. 93-95.

GENI
GENI Design Principles [Column], GENI Planning Group, Sept., pp. 102-105.
Game design and development
Building a Game Development Program, L. Argent et al., June, pp. 52-60.
The Captured Imagination [Column], D.A. Grier, June, pp. 7-9.
Educating the Next Generation of Game Developers [Guest Editor’s Introduction], M. Zyska, June, pp. 30-34.
Game Design Education: Integrating Computation and Culture, J. Murray et al., June, pp. 43-51.
Games and Technology: Developing Synergy [Column], N. Gershon et al., Dec., pp. 129-130.
Play-Centric Games Education, T. Fullerton, June, pp. 36-42.

Gender differences
Globalization
Across the Great Divide [Column], D.A. Grier, July, pp. 8-10.
Can Indian Software Firms Compete with the Global Giants? P. Konana, July, pp. 43-47.
Globalization and the Future of Standardization [Column], R. Robson, July, pp. 82-84.

Google Video
Google Becomes an Entertainment Company [Column], M. Macedonia, Feb., pp. 101-103.

Graphics engines

Grid computing

HDTV
Moving Beyond HD [Column], M. Macedonia, Oct., pp. 115-117.

Hardware technology
The Device Software Engineer’s Best Friend [Column], M. Lindahl, May, pp. 95-97.
Good Ideas, through the Looking Glass, N. Wirth, Jan., pp. 28-39.

Healthcare technology
Coping with Defective Software in Medical Devices, S.R. Rakitin, Apr., pp. 40-45.
Ensuring Patient Safety in Wireless Medical Device Networks, V. Gehlot and E.B. Sloane, Apr., pp. 54-60.
High-Confidence Medical Device Software and Systems, I. Lee et al., Apr., pp. 33-38.

Heterogeneous core computers
What’s in a Name [Column], J.M. Paul, Mar., pp. 87-89.

Human-computer interaction

I
IEEE Computer Society
Celebrating the Past, Looking to the Future [IEC’s Message], D.L. Carver, Jan., pp. 8-10.
Computer Society Announces Summer and Fall Conferences [CS Connection], B. Ward, May, pp. 69-73.
Computer Society Honors Oklahoma Teen at Intel Science Fair [CS Connection], B. Ward, July, pp. 67-70.
Computer Society Offers Full Slate of Programs in 2006 [CS Connection], B. Ward, Jan., pp. 87-90.
Computer Society Seeks Nominations for Technology of the Decade Award [CS Connection], B. Ward, Apr., pp. 75-77.
IEEE Computer Society Election [Report to Members], Sept., pp. 73-80.
The IEEE Computer Society’s 60th Anniversary [Special Issue Introduction], D. Carver et al., Oct., pp. 22-25.
IEEE President-Elect Candidates Respond to Questions on Governance Issues [CS Connection], Sept., pp. 81-86.

Making Our Society Even Better [President’s Message], D.M. Cooper, Feb., pp. 5-7.

NC State Team Wins $20,000 CSIDC Prize [Report to Members], B. Ward, Aug., pp. 13-16.

Reaching Out to Shape Our Future, [President’s Message], D.M. Cooper, Dec., pp. 8-10.

Weyuker and Barbacci Honored with Society Awards [CS Connection], B. Ward, June, pp. 73-74.

IGSTK

IT systems perspectives

Assessing the Health of Open Source Communities [Column], May, pp. 89-91.

A Developmental View of System Security [Column], Jan., pp. 113-114.

Mathematical Server Sizing [Column], D. Brodine, July, pp. 91-93.

Indexing algorithms

Informatics

Integrated circuits

The Innovation Curve [Column], D.A. Grier, Feb., pp. 8-10.

Interactive displays

Interacting with Large Displays [Column], P. Baudisch, Apr., pp. 96-97.

International Space Station

Internet security

The Benefits of Being Different [Column], D.A. Grier, Nov., pp. 6-8.

False Domain-Name Database Information Plagues Internet [News], L.D. Paulson, Feb., p. 21.

GENI Design Principles [Column], GENI Planning Group, Sept., pp. 102-103.

Interoperability issues

Recipes for Digital Living [Column], M.W. Newman et al., Feb., pp. 104-106.

Interprocess communication

Can We Make Operating Systems Reliable and Secure?, A.S. Tanenbaum et al., May, pp. 44-51.

 Invisible computing

Detecting Ads in Video Streams Using Acoustic and Visual Cues [Column], M. Covell et al., Dec., pp. 135-137.

Games with a Purpose [Column], L. von Ahn, June, pp. 92-94.

Interacting with Large Displays [Column], P. Baudisch, Apr., pp. 96-97.

Recipes for Digital Living [Column], M.W. Newman et al., Feb., pp. 104-106.

Taking Sensor Networks from the Lab to the Jungle [Column], A.S. Tanenbaum et al., Aug., pp. 98-100.

Iris scans

Biometric Authentication [Column], A.C. Weaver, Feb., pp. 96-97.

Light field imaging

Mobile computing

Quantifying Interactive User Experiences on Thin Clients, N. Tolia et al., Mar., pp. 46-52.

TV Comes to the Mobile Phone [News], L.D. Paulson, Apr., pp. 13-16.

Mobile sensor networks

Model-based languages

Model-driven engineering

Automating Change Evolution in Model-Driven Engineering, J. Gray et al., Feb., pp. 51-58.

Modeling

Microprocessors

Can We Make Operating Systems Reliable and Secure? A.S. Tanenbaum et al., May, pp. 44-51.

Microsoft .NET

Smart Clients versus Web Forms [Column], N. Veeramani, Aug., pp. 93-95.

Middleware systems

Minix 3

Can We Make Operating Systems Reliable and Secure? A.S. Tanenbaum et al., May, pp. 44-51.
ANNUAL INDEX

Moment Camera

Multiscale modeling

Multi-server architectures
Can We Make Operating Systems Reliable and Secure? A.S. Tanenbaum et al., May, pp. 44-51.

NASA flight systems

NSF STEM programs

Nanotechnology

Near-field communication

Network architectures
GENI Design Principles [Column], GENI Planning Group, Sept., pp. 102-105.

Network security

A Developmental View of System Security [Column], C.L. Huntley, Jan., pp. 113-114.

Networking infrastructure

Object-oriented languages

Open source software
Assessing the Health of Open Source Communities [Column], K. Crowston and J. Howison, May, pp. 89-91.

Operating systems
Can We Make Operating Systems Reliable and Secure? A.S. Tanenbaum et al., May, pp. 44-51.

The Problem with Threads, E.A. Lee, May, pp. 33-42.

Organic LEDs

Outsourcing
Can Indian Software Firms Compete with the Global Giants?, P. Konana, July, pp. 43-47.

The Unspoken Revolution in Software Engineering [Column], B. Meyer, Jan., pp. 124, 121-123.

P

Pair programming
Debunking the Nerd Stereotype with Pair Programming [Series], L. Williams, May, pp. 83-85.

Patterns

Pervasive computing

Making Our Society Even Better [President's Message], D.M. Cooper, Feb., pp. 5-7.

Reaching Out to Shape our Future, [President's Message], D.M. Cooper, Dec., pp. 8-10.

Our Profession Needs a Reminder [Column], V. Milutinovic, May, pp. 104, 102-103.

Professional issues
The Data Doughnut and the Software Hole [Column], N. Wirth, Jan., pp. 110-112.

Professional issues
The Network Architectures [Column], B. Artzi, Oct., pp. 36-43.

President's message
Making Our Society Even Better [President's Message], D.M. Cooper, Feb., pp. 5-7.

Reaching Out to Shape our Future, [President's Message], D.M. Cooper, Dec., pp. 8-10.

Professional issues
The Data Doughnut and the Software Hole [Column], N. Wirth, Jan., pp. 110-112.

Debunking the Nerd Stereotype with Pair Programming [Series], L. Williams, May, pp. 83-85.

Our Profession Needs a Reminder [Column], V. Milutinovic, May, pp. 104, 102-103.

Program verification
What Can We Expect from Program Verification? M. Jackson, Oct., pp. 65-71.

Programmable system chips

Programming languages
Automating Change Evolution in Model-Driven Engineering, J. Gray et al., Feb., pp. 51-58.

Good Ideas, through the Looking Glass, N. Wirth, Jan., pp. 28-39.

Programmable systems

Programming languages
Automating Change Evolution in Model-Driven Engineering, J. Gray et al., Feb., pp. 51-58.

Good Ideas, through the Looking Glass, N. Wirth, Jan., pp. 28-39.

The Problem with Threads, E.A. Lee, May, pp. 33-42.

What Have We Not Learned about Teaching Programming? D. Gries, Oct., pp. 81-82.
To Drive Is Human, I. Miller et al., Dec., pp. 52-56.
VisLab and the Evolution of Vision-Based UGVs, M. Bertozzi et al., Dec., pp. 31-38.
Urban computing
Use case diagrams
Qualifying Use Case Diagram Associations, A.N. Dedeke, June, pp. 23-29.
User interfaces
Interacting with Large Displays [Column], P. Baudisch, Apr., pp. 97-97.
Verified Software Grand Challenge
First Steps in the Verified Software Grand Challenge, J. Woodcock, Oct., pp. 57-64.
Verified Software: A Grand Challenge [Column], C. Jones et al., Apr., pp. 93-95.
ViroLab
Virtual cinematography
Virtualization
Virtual Museum Exhibitions [Column], K. Walczak et al., Mar., pp. 93-95.
VisLab
VisLab and the Evolution of Vision-Based UGVs, M. Bertozzi et al., Dec., pp. 31-38.
Visual modeling

Weather forecasting
Web crawling and searching
Browsing the 3D Web [News], N. Leavitt, Sept., pp. 18-21.
Browsing the 3D Web [News], N. Leavitt, Sept., pp. 18-21.
Web forms
Simplifying Client versus Web Forms [Column], N. Veeramani, Aug., pp. 93-95.
Web services

The Untrustworthy Web Services Revolution [Column], K. Birman, Feb., pp. 98-100.
Web technologies
Paid Search [Column], B.J. Jansen, July, pp. 88-90.
Virtual Museum Exhibitions [Column], K. Walczak et al., Mar., pp. 93-95.
Web-video
Wi-Fi
Wireless technology
Ensuring Patient Safety in Wireless Medical Device Networks, V. Gehlot and E.B. Sloane, Apr., pp. 54-60.
Taking Sensor Networks from the Lab to the Jungle [Column], A.S. Tanenbaum et al., Aug., pp. 98-100.
