University of Cincinnati. Two full-time tenure track Assistant/Associate Professor faculty positions in Computer Science are open in the EECS Department at the University of Cincinnati. Areas of expertise being sought include, but are not limited to, software engineering, cyber-security, and scalable data management & analytics. Candidates must have a PhD in Computer Science or a closely related discipline by the date of appointment. Apply and view detailed job description at www.jobsatuc.com (Position # 213UC5559). Review of applications will continue until both positions are filled. The University of Cincinnati is an affirmative action/equal opportunity employer. UC is a smoke-free work environment.

Texas State University, Department of Computer Science. Applications are invited for two tenure-track faculty positions in any computer science field to start September 1, 2014. The rank for either position can be Assistant Professor or Associate Professor, depending on qualifications. Consult the department recruiting page at http://www.cs.txstate.edu/recruitment/ and curriculum development; ability to teach, advise and mentor students from diverse backgrounds; potential for excellent teaching, research and evidence of teaching and research experience or a closely related discipline by the date of appointment. Apply and view detailed job description at www.jobsatuc.com (Position # 213UC5559). Review of applications will continue until both positions are filled. The University of Cincinnati is an affirmative action/equal opportunity employer. UC is a smoke-free work environment.

California State University, East Bay (Hayward, CA). Department of Mathematics and Computer Science, Faculty Position in Computer Science. Position (OAA Position 14-15 MCS-POSITION (OAA Position 14-15 MCS-COMPUTATIONAL-IT)) The Department invites applications for a tenure-track appointment as Assistant Professor in Computer Science (preference to theory) starting Fall 2014. Teaching includes day and evening courses at B.S. and M.S. levels, with a typical teaching responsibility of three classes/Quarter. Required: potential for excellent teaching, research and curriculum development; ability to teach, advise and mentor students from diverse backgrounds; potential to serve Department and University. Applicants must have a Ph.D. by September, 2014. Please submit an application letter and a current and complete vita through the following URL: https://my.csueastbay.edu/sp/pspdb1/EMPLOYEE/HRMS/c/ HRS_HRAM.HRS_CE.GBL. Additionally, please email graduate transcripts, 3 letters of recommendation, 3 references, a statement of teaching philosophy, and evidence of teaching and research abilities to the Computer Science Search Committee at the email address below. A detailed position announcement is available at: http://www20.csueastbay.edu/about/career-opportunities/. For questions, email: CSSearch@mcs.csUEastBay.edu. Application Deadline: Review of applications will begin November 1, 2013. CSUEB, situated in the hills overlooking San Francisco Bay, is an EOE, committed to "educational excellence for a diverse society".

Wellpoint, Inc.: Database Administrator Senior (Indianapolis, IN): Provide 24/7 production database support for all ORACLE databases, monitoring day-to-day processes, rectifying any production and data issues in a timely manner, develop Month/Quarter/Year End batch processes, and troubleshoot issues for business users and analysts; providing

Faculte in Distributed Computing Systems Engineering at the Ecole polytechnique federale de Lausanne (EPFL)

The Institute of Electrical Engineering at EPFL invites applications for a tenure track assistant professor in the area of Distributed Computing Systems Engineering. Recruitment to a tenured senior position may be considered in exceptional cases.

A strong expertise is requested in the broad fields of mainstream as well as non-conventional Computing and Communication Systems Engineering, comprising hardware, software and interfaces. Research areas of interest include, but are not limited to: (a) cyber-physical systems and networked computing systems, (b) interfaces of data-acquisition systems with the physical world, (c) smart peripherals and dedicated accelerators (d) real-time reconfigurable systems.

The successful candidate is expected to initiate independent, creative research programs and actively participate in undergraduate and graduate teaching.

Significant start-up resources and state-of-the-art research infrastructure will be available. Salaries and benefits are internationally competitive.

Applications should include a cover letter with a statement of motivation, curriculum vitae, list of publications and patents, concise statement of research and teaching interests, and the names and addresses of 5 references. Applications must be uploaded in PDF format to the recruitment web site:

http://distributed-computing.epfl.ch

Candidate evaluation will begin on 15 December 2013.

Enquiries may be addressed to:
Prof. Yusuf Leblebici
Search Committee Chair
E-mail: iel-search@epfl.ch

For additional information on EPFL, please consult the web sites: www.epfl.ch, sti.epfl.ch and iel.epfl.ch

EPFL is committed to increasing the diversity of its faculty, and strongly encourages women to apply.
them with technical guidance on software tools and techniques. Requires: Education: Bachelor’s or foreign equivalent degree in Computer Science, Information Systems, or a related field. Sunnyvale, CA 94086. EOE

CLASSIFIED LINE AD SUBMISSION DETAILS: Rates are $400.00 per column inch ($600 minimum). Eight lines per column inch and average five typeset words per line. Send copy at least one month prior to publication date to: Marian Anderson, Classified Advertising, Computer Magazine, 10662 Los Vaquerros Circle, Los Alamitos, CA 90720; (714) 821-8380; fax (714) 821-4010. Email: manderson@computer.org.
Cisco Systems, Inc. is accepting resumes for the following positions:

**Boxborough, MA:**

- **Network Consulting Engineer (Ref# BOX11):** Responsible for the support and delivery of Advanced Services to company's major accounts. **Test Engineer (Ref# BOX12):** Build test equipment and test diagnostics for new products based on manufacturing designs. **Manager, Software Development (Ref# BOX6):** Lead a team in the design and development of company's hardware or software products.

**Centennial, CO:**

- **Network Consulting Engineer (Ref#: CENT23):** Responsible for the support and delivery of Advanced Services to company's major accounts. Travel may be required to various unanticipated locations throughout the United States.

**Edison/Iselin, NJ:**

- **Network Consulting Engineer (Ref#: ED7):** Responsible for the support and delivery of Advanced Services to company's major accounts. Travel may be required to various unanticipated locations throughout the United States.

**Lawrenceville, GA:**

- **Hardware Engineer (Ref#: LVI):** Responsible for the specification, design, development, test, enhancement, and sustaining of networking hardware.

**Morrisville, NC:**

- **IT Engineer (Ref#: MORR3):** Responsible for development, support and implementation of major system functionality of company's proprietary networking products.

**Research Triangle Park, NC:**

- **Customer Support Engineer (Ref#: RTP1):** Responsible for providing technical support regarding the company's proprietary systems and software. **Software/QA Engineer (Ref#: RTP4):** Debug software products through the use of systematic tests to develop, apply, and maintain quality standards for company products. **Software Engineer (Ref#: RTP3):** Responsible for the definition, design, development, test, debugging, release, enhancement or maintenance of networking software. **Technical Solutions Architect (Ref#: RTP41):** Provide high-level and detailed consultative solutions, technical and sales support for selected major account opportunities. Travel may be required to various unanticipated locations throughout the United States. **IT Analyst (Ref# RTP10):** Responsible for evaluating and documenting business needs, recommending business process and Information Technology solution alternatives and coordinating delivery of technical solutions to clients.

**San Jose/Milpitas/Santa Clara, CA:**

- **Customer Operations Analyst (Ref# SJ96):** Provide leadership in definition of the requirements gathering process. Conduct preliminary interviews to determine a comprehensive stakeholder and subject matter expert list. **Database Security Administrator (Ref# SJ121):** Provides database design and management function for business and/or engineering computer databases. **Solutions Architect (Ref# SJ161):** Responsible for IT advisory and technical consulting services development and delivery. Travel may be required to various unanticipated locations throughout the United States. **User Experience Engineer (Ref# SJ10):** Identify user interaction requirements and develop user experience interface specifications and guidelines. **Diagnostic Engineer (Ref# SJ168):** Develop device drivers and diagnostic code for new hardware programs. Bring up new hardware prototypes from bootloader thru to diagnostic and application software.

**Washington DC:**

- **Software Engineer (Ref: DCl):** Responsible for the definition, design, development, test, debugging, release, enhancement or maintenance of networking software.

Please mail resumes with reference number to Cisco Systems, Inc., Attn: J51W, 170 W. Tasman Drive, Mail Stop: SJC 5/1/4, San Jose, CA 95134. No phone calls please. Must be legally authorized to work in the U.S. without sponsorship. EOE.

Apple has the following job opportunities in Cupertino, CA:

**SW Develop Eng 4 [Req #3]NI208** Design & implement future technologies designed to further enhance the security of Mac OS X operating system.

**Engineering Manager [Req #3]WI606** Design and develop of an advanced map imaging sw. Direct reports.

**Quality Assurance Engineer [Req. #3FH0211]** Participate on the iOS “Siri” Quality team in its effort to provide the best mobile platform experience for our customers.

**Sr. SW Engineer [Req. #3AK0716]** Apply sw engg principles to optimize & enhance processing pipeline & sw encoding workflows.

**Senior SW Engineer [Req. #3FZ0701]** Lead iOS & java middleware develop.

**SW Engineer [Req #3GS0319]** Design & develop SW for maps, navigation & route planning.

**Big Data Framework Developer [Req #3GX2219]** Design frameworks for managing, querying, analyzing & processing of the data in Enterprise Data Warehouse.

**Test Engineer [Req #3GX0220]** Design & develop mechanical solutions for testing Apple products. Employer-reimbursed travel req'd.

**SW Manager 1 [Req #3]Q0313** Perform daily testing of applications & daily builds including design & implementation of test plans. Will have direct reports.

**Computer Vision Researcher [Req #3]RI016** Optimize algorithms & implementations for Mac specific technologies & iOS devices.

**Human Interface Design Engineer [Req #3]ST313** Develop & perform human interface design drawing or principles of graphic design activities for a specific product or group of products.

**Sr. SW Engineer, Mobile Applications [Req #3]JI018** Design, develop, test & maintain server-driven Mobile E-commerce Application SW. Available for 24-hour on-call duty.

**Sr SW Engineer Req #3]90103** Develop & implement large scale applications.

**SW Dvlpmt Mgr (Mgr, Language Technologies) [Req. #3]91902** Define technologies & develop software application tools using techniques of natural language processing & computational linguistics. Direct Reports.

**Hardware Engineer [Req #3]SO420** Analyze imaging system performance. May require 10% international travel time.

**iOS Audio SW Tools Engineer [Req #3]JO820** Develop & maintain graphical user interface tools for control of real-time audio signal processing modules.

**Pixel Pipeline Architect [Req. #3]AI0113** Conduct research, develop, & model new algorithms for pixel processing.

**Sys Design Engineer [Req# 3MN0218]** Test & evaluate the latest iPAD, iPHONE & iPOD HW sys. Employer-reimbursed travel req'd.

**ASIC Design Engineer [Req# 3MR0305]** Design complex, high performance, & low power Floating Point Unit of a microprocessor (CPU).

**RealTime Communications Engineer [Req. #3AV0307]** Develop sw for real-time networking & communications services.

**ASIC Design Engineer [Req. #3ML0707]** Implement complex, high performance & low power units of a microprocessor (CPU) involving gate-level logic design, HDL synthesis & place-and-route (P&R).

**Sys Design Engineer [Req# 3AB0713]** Engage in Radio Frequency Test Sys integration for various wireless standards.

**Audio Prototyping Engineer [Req #3]J91908** Perform audio prototype planning, material selection, computer-aided design (CAD), machining, computer numerical control (CNC) of machining, audio module assembly, testing & final design analysis.

Mail resumes to 1 Infinite Loop M/S: 104-1GM, Attn: SA, Cupertino, CA 95014. Principals only. Must include Req# to be considered. EOE.
Apple has the following job opportunities in Cupertino, CA:

Programmer/Analyst [Req #3A012207] Responsible for supporting global SAP implementations. Direct reports.

iOS International QA Manager - Americas [Req #3A0122] Responsible for international aspects of iOS native applications. May have direct reports. May require up to 30% of international travel.

SW Dvlpmt Engineer [Req #3GY0120] Design & develop SW for GPU developer tools.

System Design Engineer [Req #3HB0819] Evaluate the latest iPad, iPhone & iPod HW systems.

Data Warehouse Dvlpmt Lead [Req #3HG819] Drive design & development of business intelligence initiatives across various business functions.

Specialist/Eng’g Project Coordinator [Req #3JY1911] Plan, direct & coordinate everyday logistics between different cross-functional groups. Employer-reimbursed travel req’d.

SW QA Engineer [Req #3JQ1113] Perform SW & HW testing related to iCloud, iOS, & Mac OS X.

Noise & Vibration Validation Engineer [Req #3J91116] Quantify & analyze results from acoustic & vibration testing to communicate them to teams of associated risk.

Geocoder Data Analyst (SW Engineer) [Req #3J91411] Evaluate the quality of the geocoding SW applications.

SW Engineer, iOS Keyboards [Req #J09112] Design, develop & introduce innovative & breakthrough text input mechanisms for millions of users worldwide.

Bluetooth QA Engineer [Req #J08137] Perform overall day to day testing activities on products & accessories supporting Bluetooth technology. Employer reimbursed travel req’d.

Design for Test, Processor Project Owner [Senior ASIC Design Engineer] [Req #J3K816] Design Application Specific Integrated Circuits spanning all aspects of chip design focusing on Design for Testability. Employer reimbursed travel req’d.

Design Verification Engineer [Req #3J01012] Validate the correct functioning of custom-designed Central Processing Units in silicon chips designed for mobile devices.

Cellular Functional Test Engineer [Req #3AO1316] Design test plans & execute test cases for Cellular features on iOS Cellular products.

SW Dvlpmt Engineer [Req #3MX0201] Developing & maintain restore and update technologies.

Eng’g Project Manager [Req. #3MM0301] Serves as key interface between cellular phone Carriers and Apple in the certification of wireless devices.

Mechanical Quality Engineer [Req/ 3AA0312] Develop & implement total quality sys for manufacturers of mechanical enclosure by using measurement methods, inspection practices, & quality reporting tools.

Sr Module Process Engineer [Req. #3A30316] Lead eng’g activities & serve as focal point in the dvlpmt of new processes & designs for flat panel modules. Employer reimbursed travel req’d.

Sr Design Eng (HW Engineer) [Req. #3AO0803] Develop TFT & panel design/simulation for the TFT panel technologies used in Apple products. Employer reimbursed travel req’d.

Principle Cell Process Engineer [Req #3AO0803] Perform senior level LCD cell process eng’g activities to enable the best design, performance & manufacturability of Apple’s innovative display products.

SW QA Engineer (3 openings) [Req #3J4403] Test the functionality of an application (e.g. Mail, Safari, Photos app) for the iPhone, iPad, & iPod Touch.

Sys Design Engineer [Req/ 3AE0140] Evaluate & test the latest iPad, iPhone & iPod HW sy in both the field & in the Lab.

Eng’g Sys Administrator [Req. #3AX0422] Carry out 24X7 administration of production, QA & dvlpmt database infrastructure related to Internet Services.

SW Engineer [Req. #3AV0706] Design & develop SW for e-commerce sys.

HW Dvlpmt Engineer 4 [Req #3AO0208] Design & develop mobile handheld devices from concept to mass production. Employer reimbursed travel req’d.

Global Supply Manager, iPhone Enclosures [Req #3AP0326] Develop execution & production of Apple’s differentiated & unique mechanical enclosure parts. Employer reimbursed travel required.

Mechanical Quality Engineer [Req/ 3AP0323] Drive quality improvements of components & assemblies for liquid crystal displays (LCD) at contract manufacturing sites. Employer reimbursed travel required.

SW QA Engineer [Req #3AP2325] Test automation for iCloud service.

Mail resumes to 1 Infinite Loop M/S: 104-1GM, Attn: SA, Cupertino, CA 95014. Principals only. Must include Req# to be considered. EOE.
