Check Out All of the Related Resource on Self-Aware & Self-Expressive Computing Systems

Build Your Knowledge

**IEEE Transactions on Pattern Analysis and Machine Intelligence**
This scholarly monthly journal covers computer vision and image understanding, pattern analysis and recognition, and areas of machine intelligence.

**IEEE Intelligent Systems**
The bi-monthly peer-reviewed cutting edge magazine covers the theory and application of systems that perceive, reason, learn and act intelligently.

Create Connections

**Technical Committee on Intelligent Informatics**
Deal with tools and systems using biologically and linguistically motivated computational paradigms such as artificial neural networks, fuzzy logic, Web intelligence and intelligent agent technology to name a few of the areas they cover.

**Technical Committee on Pattern Analysis and Machine Intelligence**
The committee is concerned with pattern recognition, artificial intelligence, expert systems, natural language understanding, image processing, and computer vision. Its interests include methodology, applications, systems organization, and technology.
