The School of Engineering (STI) of EPFL invites applications for a faculty position in electronic design for distributed and secure hardware systems at the tenure-track assistant professor level at the EPFL Lausanne campus.

Research activities should relate to one or more of the following subjects: safe and secure circuit design and design tools, hardware components and design methods for Internet of Things (IoT), automotive electronic systems, dependable system-on-chip architectures.

Research activities with an emphasis on experimental approaches and links with industry will be strongly encouraged so as to benefit from the unique experimental facilities that will be made available at the EPFL Lausanne campus in electronics and communication engineering.

As a faculty member of the School of Engineering, the successful candidate will be expected to initiate an independent and creative research program and participate in undergraduate and graduate teaching. Internationally competitive salaries, start-up resources and benefits are offered.

EPFL, with its main campus located in Lausanne, Switzerland, is a dynamically growing and well-funded institution fostering excellence and diversity. It has a highly international campus at an exceptionally attractive location boasting first-class infrastructure. As a technical university covering essentially the entire palette of engineering and science, EPFL offers a fertile environment for research cooperation between different disciplines. The EPFL environment is multi-lingual and multi-cultural, with English often serving as a common interface.

Applications should include a cover letter with a statement of motivation, curriculum vitae, list of publications and patents, concise statement of research and teaching interests, and the names and addresses of at least five referees. Applications must be uploaded in PDF format to the recruitment web site:

Email: iel-search@epfl.ch

Formal evaluation of candidates will begin on December 1st, 2016 and continue until the position is filled.

For additional information on EPFL, please consult the web sites:

www.epfl.ch, sti.epfl.ch and iel.epfl.ch.

EPFL is committed to increasing the diversity of its faculty, and strongly encourages women to apply.

The University of Alabama in Huntsville

The Department of Computer Science of The University of Alabama in Huntsville (UAH) invites applicants for a tenure-track faculty position at the Assistant Professor level beginning January 2017. The incumbent will augment the department’s emphasis in at least one of the following areas: cloud computing, particularly secure cloud computing; mobile computing, particularly secure mobile computing; or data science, particularly big data applications. Outstanding candidates who couple cybersecurity with other areas of computing could also be considered.

A Ph.D. in computer science or a closely related area is required. The successful candidate will have a strong academic background, perform funded research, be able to carry out research in areas typical for publication in well-regarded academic conference and journal venues, and be keen on undergraduate education.

The department has a strong commitment to excellence in teaching, research, and service; the hire should have good communication, strong teaching potential, and research accomplishments.

UAH is located in an expanding, high technology area, next door to one of the largest research parks in the nation. Nearby are the NASA Marshall Space Flight Center, the Army’s Redstone Arsenal, and many high-tech industries. UAH also has an array of research centers, including in information technology, modeling and simulation, etc. In short, collaborative research opportunities are abundant, and many well-educated and highly technically skilled people are in the area. There is also access to excellent public schools and housing.

UAH has approximately 8000 students. UAH Computer Science offers the BS, MS, and PhD degrees in Computer Science and the MS and PhD degrees in modeling and simulation. Approximately 200 undergraduate majors and 175 graduate students are associated with the unit. Faculty research interests are many and include cybersecurity, mobile computing, data science, software engineering, visualization, graphics and game computing, multimedia, AI, image processing, pattern recognition, and distributed systems. Recent NSF figures indicate the department ranks 30th in the nation in overall federal research funding.

Interested parties should submit a detailed resume with references to Chair, Search Committee, Dept. of Computer Science, The University of Alabama in Huntsville, Huntsville, AL 35899. Qualified female and minority candidates are encouraged to apply. Initial review of applicants will begin starting in late Summer 2016 and will continue until a suitable candidate is found.

The University of Alabama in Huntsville is an affirmative action/equal opportunity employer/ minorities/ females/ veterans/ disabled.

ABOUT THE MERWIN AWARD
The highest level volunteer service award of the IEEE Computer Society for outstanding service to the profession at large, including significant service to the IEEE Computer Society or its predecessor organizations.

ABOUT RICHARD MERWIN
Richard Merwin was a pioneer in digital computer engineering who participated in the development of the ENIAC, MANIAC, and STRETCH computers. Despite a busy and productive technical career, Merwin found time to be active in professional societies, including the IEEE Computer Society, ACM and AFIPS. His generosity of spirit and genuine helpfulness was an important element in the progress of the computer profession.

AWARD
A bronze medal and $5,000 honorarium are awarded.

PRESENTATION
The Richard E. Merwin Award is presented at the IEEE Computer Society’s Annual Awards Ceremony.

REQUIREMENTS
This award requires 3 endorsements.

NOMINATION SUBMISSION
Nominations are being accepted electronically www.computer.org/web/awards/merwin

Richard E. Merwin Award for Distinguished Service
