Acknowledgment

This work was supported by a project entitled "Development of an Interactive Facility for Digital System Design," sponsored by the Department of Electronics, Government of India.

References

Anshul Kumar is an assistant professor in the computer science and engineering dept. of the Indian Institute of Technology, Delhi, and the principal investigator of the project, "Development of an Interactive Facility for Digital System Design." He has been involved in research, development, and teaching at IIT Delhi since 1974 in the areas of computer-aided design of digital systems, VLSI design, microprocessors, and signal processing systems. From 1981 to 1982 he was a visiting post-doctoral research fellow at the University of Southern California, Los Angeles.

He received his B. Tech. and PhD degrees in electrical engineering from IIT Delhi in 1974 and 1980 respectively, and was awarded the President's Gold Medal in 1974 for securing first position in all the disciplines.

Anjali Arya received the BE degree in electronics and communication engineering in 1983 from the University of Roorkee, Roorkee, India, and the M. Tech. degree in computer technology in 1985 from the Indian Institute of Technology, Delhi.

She joined the faculty of the University of Roorkee department of electronics and communication engineering in 1985 as lecturer. Her major interest is in CAD of digital systems. Ms. Arya is a member of the IEEE Computer Society.

The authors' address is in care of Dr. Anshul Kumar, Computer Science and Engineering Department, Indian Institute of Technology-Delhi, New Delhi 110016, India.

Amit Misra is a design engineer with Applied Electo-Magnetics, New Delhi. His interests are in microprocessor-based design and design automation. He received his B. Tech. degree in electrical engineering from the Indian Institute of Technology, Delhi, in 1985.

His present address is: Applied Electro-Magnetics, 36-37 New Okha Industrial Complex, Phase I, New Delhi 110020, India.
