We want you for the ISDN Revolution.

There's a revolution just getting underway. And we're leading it. We've already developed the GTD-5 EAX...the first volley in the telecommunication insurrection.

But behind every brilliant revolution, there are brilliant revolutionaries. Like the ones you'll find here. Dedicated, inquisitive people. They not only know how to run with an idea, but how to work shoulder-to-shoulder with their fellow revolutionaries.

**Systems Test**
Develop test plans for large multiprocessor distributed processing digital telephone switching systems. Requires execution of tests using sophisticated processor driven equipment and single thread call testing modes, including system troubleshooting both hardware/software with isolation to module or PWB level. BSEE with digital experience, telephony background and MSEE preferred.

**Software Development**
Develop on-line software for large digital telephone switching systems for all areas including call processing, maintenance, operating system, and administration software. BSEE/CS with Pascal, PL1 or 'C' background, telephony experience preferred.

**Hardware Development**
Design of complex microprocessor controlled hardware subsystems for digital communications systems. Experience in logic design using microprocessors as well as a solid understanding of hardware/software tradeoffs essential. BSEE required, MSEE/CS preferred.

If this describes you, send us your resume. Or give us a call. Just say "I want to enlist."

GTE Communication Systems, Human Resources Dept. 0801, c/o 3221 N. 16th St., #106, Phoenix, AZ 85016. An Equal Opportunity Employer M/F/H.
