1987 D&T REFEREES

Thanks to all for their valuable contributions.—The Board of IEEE Design & Test of Computers.

Magdi Abadir, Microelectronics and Computer Corp.
Miron Abramovici, AT&T Information Systems
Jim Achugbue, Mentor Graphics
Vinod Agarwal, McGill University
Prathima Agrawal, AT&T Bell Labs
Vishwani D. Agrawal, AT&T Bell Labs
S. B. Akers, University of Massachusetts
Jack Arabian, Digital Equipment Corp.
P. Banerjee, University of Illinois
Paul H. Bardell, IBM
Daniel Beece, IBM
Bhargab B. Bhattacharya, University of Nebraska
Dilip K. Bhavasar, Digital Equipment Corp.
N. N. Biswas, Indian Institute of Science
Tom Blank, Stanford University
Peter S. Buttorff, IBM
Alan C. Bradley, Tektronix
M.A. Breuer, University of Southern California
R.W. Brodersen, University of California, Berkeley
William Bruce, Motorola
Randal Bryant, Carnegie Mellon University
Michael Butts, Mentor Graphics
Raul Camposano, IBM
Ed Cerny, University of Montreal
R.D. Chamberlain, Washington University
KT Cheng, University of California, Berkeley
Wei-Tau Chiang, Intel Corp.
K.C. Chu, Microelectronics Computer Corp.
Terry Cole, AMD
Sumit DasGupta, IBM
A.E. Dunlop, AT&T Bell Labs
Edward Eichelberger, IBM
Joel Ferguson, Carnegie Mellon University
Michael J. Flynn, Stanford University
J. Fox, General Telephone Labs
W.K. Fuchs, University of Illinois
Hideo Fujiwara, Meiji University
Patrick Gelsinger, Intel Corp.
Prabhoo Goel, Gateway Design Automation Corp.
Ibrahim Hajj, University of Illinois
John P. Hayes, University of Michigan
Sandy Hirschhorn, Stratus Computers
Sunil K. Jain, AT&T Bell Labs
Jing-Yang Jou, AT&T Bell Labs
Joseph Kljaich, Jr., AT&T Bell Labs
K.L. Kodandapani, Digital Equipment Corp.
B. Koenemann, IBM
B. Krishnamurthy, Tektronix
Eric Kronstadt, IBM
David Ku, Stanford University
Ernest S. Kuh, University of California, Berkeley
Gary Leive, GE Calma
Donald Lenhert, Kansas State University
Y. H. Levenel, AT&T Bell Labs
T. Lin, AT&T Bell Labs
Eric Lindbloom, IBM
Horng-ing Liou, AT&T Bell Labs
W. Luciw, consultant
Steve Lusky, Texas Instruments
Hi Keung Ma, University of California, Berkeley
Y. K. Malaiya, Colorado State University
Robert Mathews, Silicon Solutions
Richard Meitzler, Stratus Computers
P.R. Menon, University of Massachusetts
M.R. Mercer, University of Texas
David Miller, AT&T
Thomas J. Miller, Telesis Systems Corp.
Philip Moorby, Gateway Design Automation Corp.
Robert Mueller, Colorado State University
Brian Murray, University of Michigan
D.L. Ostapko, IBM
Ken P. Parker, Hewlett-Packard
Edward Parrish, University of Virginia
Madhukar Reddy, General Telephone
Sudhakar Reddy, University of Iowa
Hassan K. Reghbati, University of British Columbia
V.T. Rhyme, Microelectronics and Computer Corp.
Scott Robinson, Carnegie Mellon University.
W.A. Rogers, University of Texas
Robert Rutenbar, Carnegie Mellon University
Kewal K. Saluja, University of Wisconsin
Mariagiovanna Sami, Politecnico di Milano
A. Sangivannii-Vincentelli,
University of California, Berkeley
J. Savir, IBM
Donald Schuler, Apollo Computer
Richard Sedmak, Self-Test Services
Sharad C. Seth, University of Nebraska
John Shen, Carnegie Mellon University
James E. Smith, University of Wisconsin
T.J. Snethen, IBM
Nagendra Srinivas, AT&T Bell Labs
A.K. Susskind, National Science Foundation
Chris Terman, Symbolics
Kit Tham, Mentor Graphics
Erwin Trischler, Siemens
C.J. Tseng, AT&T Bell Labs
R. Tutundjian, AT&T Bell Labs
R.L. Wadsack, AT&T
Todd Wagner, Intel
John Wakerly, David Systems
John Willoughby, Stratus Computers
A.S. Wojcik, Michigan State University
Kenneth Wong, Washington University
Nam Woo, AT&T Bell Labs
C. Van Wyk, AT&T Bell Labs
