

2003 Reviewers

The articles appearing in *IEEE Intelligent Systems* are the result of hard work by many people. First are all the authors who submitted a paper. Whether or not your submission was successful, we thank you for choosing our title as where you'd like to see your research appear.

Authors often tell us how much they value the reviews they receive. I thank all of you involved in the reviewing process. Your expertise, care, and attention add to our title's quality and maintain standards within our subject. If we omitted your name, we sincerely apologize; please send us your contact information and we'll do better next time.
