The Swarm Search Feature Selection approach enables selection of an optimal feature subset from an extremely large array of features. Testing with two empirical biomedical data-sets showed that SS-FS is a feasible computing tool in achieving high accuracy in classification.
JEERP: Energy-Aware Enterprise Resource Planning
Dario Bonino, Luigi De Russis, Fulvio Corna, and Gianni Ferrero

Ever-increasing energy costs and new energy-saving requirements are pushing the limits of enterprise resource planning (ERP) systems. The authors describe Java Energy-Aware ERP, an application-oriented approach for designing energy-aware ERPs, and demonstrate a prototype system.
