Steven C. Bass is an associate professor of electrical engineering at Purdue University, where he specializes in digital signal processing and computer-aided design. He has published and consulted in these areas (as well as digital design) for several firms, including Magnavox Co., Admiral Corp., and Kimball International.

Bass is a past editor of IEEE Circuits and Systems, a light technical and newsletter publication of the IEEE Circuits and Systems Society. He is also chairman of the IEEE Committee on Signal Processing (CAS Group) and vice president of the administrative committee of the IEEE Circuits and Systems Society.

Thomas W. Goeddel has worked as both a research and teaching assistant in the Department of Electrical Engineering at Purdue University since 1978 and is currently working toward the PhD degree in electrical engineering. His research interests include digital music synthesis, image coding, and real-time signal processing systems. Goeddel is a member of Eta Kappa Nu, Tau Beta Pi, and Phi Kappa Phi.

He received the BSEE in 1977 and the MSEE in 1979, both from Purdue.

The authors’ address is School of Electrical Engineering, Purdue University, Lafayette, IN 47907.

Illustrating current research advancements, these proceedings publish six papers on microcomputer architectures and distributed processing and four papers on signal processing presented during this annual forum for the presentation and discussion of basic research on microcomputers by experts from the academic, industrial and governmental communities. 155 pp.

Order #307
August 19-22, 1979
Members—$12.00
Non-members—$16.00

Needs of the disabled, aids for educating the physically disabled, current and future technology, and career paths are dealt with in papers on technological aids for the blind and deaf, assistive aids in education and training, robotics, communication devices, and microprocessor-based aids to assist the developmentally disabled. 88 pp.

Order #301
APPLICATIONS OF PERSONAL COMPUTING TO AID THE HANDICAPPED
Proceedings, 1980 IEEE Workshop
Members—$7.50
Nonmembers—$10.00

Use order form on p. 91
