IEEE COMPUTER SOCIETY

EXECUTIVE COMMITTEE

President: O. N. Garcia, L2
1st Vice-President—Area Activities: C. V. Ramamoorthy
2nd Vice-President—Technical Activities: R. L. Russo
Vice-President for Conferences & Tutorials: C. R. Vick
Vice-President for Educational Activities: T. L. Booth
Vice-President for Membership & Information Activities: D. W. Fife
Vice-President for Publications: K. S. Fu
Vice-President for Standards: J. F. Wilhelm
Vice-President for Publishing: S. K. Hu
Vice-President for Educational Products: J. R. Chen
Vice-President for Educational Services: J. R. Chen
Vice-President for Computer Science Education: J. R. Chen
Vice-President for Computer Science Research: J. R. Chen
Vice-President for Computer Science Policy: J. R. Chen
Vice-President for Computer Science Standards: J. R. Chen
Vice-President for Computer Science Technology: J. R. Chen
Vice-President for Computer Science and Society: J. R. Chen
Vice-President for Computer Science and Industry: J. R. Chen
Vice-President for Computer Science and Education: J. R. Chen
Vice-President for Computer Science and Research: J. R. Chen
Vice-President for Computer Science and Policy: J. R. Chen
Vice-President for Computer Science and Technology: J. R. Chen
Vice-President for Computer Science and Society and Industry: J. R. Chen
Vice-President for Computer Science and Technology and Education: J. R. Chen
Vice-President for Computer Science and Research and Education: J. R. Chen
Vice-President for Computer Science and Policy and Education: J. R. Chen
Vice-President for Computer Science and Technology and Research: J. R. Chen
Vice-President for Computer Science and Society and Research: J. R. Chen
Vice-President for Computer Science and Industry and Education: J. R. Chen
Vice-President for Computer Science and Technology and Industry: J. R. Chen
Vice-President for Computer Science and Society and Technology: J. R. Chen
Vice-President for Computer Science and Industry and Research: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Education: J. R. Chen
Vice-President for Computer Science and Society and Technology and Education: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education and Technology: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education and Technology: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education and Technology: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education and Technology and Education: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education and Technology and Education: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education and Technology and Education: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education and Technology and Industry: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education and Technology and Industry: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education and Technology and Industry: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education and Technology and Industry and Education: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education and Technology and Industry and Education: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education and Technology and Industry and Education: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education and Technology and Industry and Education and Technology: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education and Technology and Industry and Education and Technology: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education and Technology and Industry and Education and Technology: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education and Technology and Industry and Education and Technology and Industry: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education and Technology and Industry and Education and Technology and Industry: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education and Technology and Industry and Education and Technology and Industry: J. R. Chen
Vice-President for Computer Science and Industry and Research and Education and Technology and Industry and Education and Technology and Industry and Education: J. R. Chen
Vice-President for Computer Science and Technology and Industry and Research and Education and Technology and Industry and Education and Technology and Industry and Education: J. R. Chen
Vice-President for Computer Science and Society and Technology and Research and Education and Technology and Industry and Education and Technology and Industry and Education: J. R. Chen
Vice-President for Computer Science and Industry and Research and ...
