**Upcoming Events**

**Computer Graphics Int'l 97, Virtual Environments and Multimedia on Networks and the Internet**
**June 23-27, 1997**
**Hasselt, Belgium**
Sponsored by the Computer Graphics Society, this conference will cover topics such as computer graphics, multimedia, networking, virtual reality, and the Internet. For more information visit http://www.edm.luc.ac.be/cgi97/.

**Int'l Conf. on Information Visualization 97**
**August 27-29, 1997**
**London, England**
This conference is organized by the Graphics-Link Association and supported by the Visualization Graphics Research Unit of the School of Computing at South Bank University. This event will focus on practical and industrial applications, education, and new research and developments of visualization. For more information contact E. Banissi, Visualization and Graphics Research Unit, South Bank University, 103 Borough Road, London, SE1 0AA, UK, e-mail banisse@sbu.ac.uk.

**IT Forum 97**
**September 15-18, 1997**
**New York, N.Y.**
This event will combine the Unix plus Windows NT conference with the DB/Expo and I2 conferences and will cover topics such as systems, networking, Internet and intranet infrastructures, databases, client-server and Web application development, and data warehousing. For more information visit http://www.itforum.com.

**Int'l Symp. on Voice, Video, and Data Communications**
**November 2-7, 1997**
**Dallas, Texas**
Sponsored by SPIE, this symposium covers multimedia terminals and systems, broadband access and networking technologies, multimedia-wave and optical wireless, and optical transmission engineering. For more information visit http://www.spie.org/info/vv97.html.

**Globecom 97**
**November 4-8, 1997**
**Phoenix, Arizona**
Sponsored by the IEEE Communications Society and IEEE Phoenix Section, this conference will present more than 300 papers about telecommunications research, developments, and applications. Leading experts will discuss the Internet, Asynchronous Transfer Mode, broadband, PCS, computer and telephony integration, and cable TV and telephony convergence. For more information visit http://globecom97.agcs.com.

**Calls for Papers**

**Int'l Conf. on Computational Intelligence and Multimedia Applications**
**February 9-11, 1998**
**Churchill, Australia**
This conference will include sessions on theory, implementation and applications, and nontechnical areas of challenges in education and technology transfer to industry. Submit three hard copies by July 7, 1997 to Henry Selvaraj, Gippsland School of Computing and Information Technology, Monash University, Churchill, VIC, Australia, 3842. Or send PostScript or Microsoft Word for Windows files to Henry.Selvaraj@fcit.monash.edu.au.

**Fifth Int'l Conf. on Computer Graphics and Visualization 97**
**February 9-13, 1998**
**Plzen, Czech Republic**
This conference will cover topics such as multimedia, virtual reality, animation, medical imaging, and standards. Paper submissions are due September 30, 1997 in camera-ready format. Send an original plus three hardcopies to Vaclav Skala, Computer Science Dept., University of West Bohemia, Univerzitni 22, Box 314, Plzen, Czech Republic, e-mail skala@kiv.zcu.cz.
