2010 Reviewer Thanks

EDITOR’S INTRO

Throughout the year, IEEE Pervasive Computing receives numerous high-quality submissions. All of these submissions are peer-reviewed through the diligent efforts of our volunteers. Our reviewers not only help identify the best of our submissions but also provide detailed recommendations to help authors improve their manuscripts, whether or not the submission is eventually accepted. Peer review is a demanding process, and I would like to publicly express our gratitude to our reviewers for their gracious efforts throughout the last year—without their efforts we simply could not produce the magazine.

—Nigel Davies, Editor in Chief
